#### General:

Ringer® Aphid-Mite Attack® for Fruits and Vegetables is a contact insecticide that provides rapid mortality of susceptible insects. Aphid-Mite Attack® quickly penetrates the insect's body and disrupts the normal function of both cells and membranes. The net effect of this unique action is that the contents of the cells are lost and rapid death results. Aphid-Mite Attack® is active only in the liquid state and only as a contact spray. No insecticidal activity should be expected once the spray solution has dried. As is common with most contact insecticides, Aphid-Mite Attack® is effective on adult and immature stage of susceptible insects.

Aphid-Mite Attack® is a pure soap consisting of 2.00% potassium salts of fatty acids manufactured by treating selected natural fatty acids with a potassium base. The inert ingredients are a combination of water and alcohol, and a pleasant citrus fragrance.

Aphid-Mite Attack<sup>®</sup> by Ringer<sup>®</sup> is an effective spray that kills aphids and mites on fruits and vegetables.

Aphid-Mite Attack<sup>®</sup> is a specially formulated combination of fresh scented aromatics and insecticidal soaps. These ingredients kill pests and provide a pleasant, fresh fragrance.

**EFFECTIVE AGAINST:** All Mites, Aphids, Crickets, Earwigs, Lace Bugs, Leaf Feeding Caterpillars and Beetles, Leafhoppers, Mealybugs, Plant Bugs, Scale Crawlers, Thrips, Whiteflies.
