Subject: Label Notification(s) for Pesticide Registration Notices 2007-4 and 98-10
1. Updated warranty statement

Dear Mr. Mongiovi:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 and 98-10 dated August 26, 2009 for:

EPA Registration 36488-36
EPA Registration 36488-33

Ringer Aphid-Mite Attack for Fruits & Vegetables
Ringer Aphid-Mite Attack for Roses & Flowers

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 2007-4 and 98-10 and finds that the label changes requested falls within the scope of PR Notice 2007-4 and 98-10. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

A handwritten signature in black ink, appearing to be "Linda Arrington".

General:

Ringer® Aphid-Mite Attack® for Fruits and Vegetables is a contact insecticide that provides rapid mortality of susceptible insects. Aphid-Mite Attack® quickly penetrates the insect's body and disrupts the normal function of both cells and membranes. The net effect of this unique action is that the contents of the cells are lost and rapid death results. Aphid-Mite Attack® is active only in the liquid state and only as a contact spray. No insecticidal activity should be expected once the spray solution has dried. As is common with most contact insecticides, Aphid-Mite Attack® is effective on adult and immature stage of susceptible insects.

Aphid-Mite Attack® is a pure soap consisting of 2.00% potassium salts of fatty acids manufactured by treating selected natural fatty acids with a potassium base. The inert ingredients are a combination of water and alcohol, and a pleasant citrus fragrance.

Aphid-Mite Attack® by Ringer® is an effective spray that kills aphids and mites on fruits and vegetables.

Aphid-Mite Attack® is a specially formulated combination of fresh scented aromatics and insecticidal soaps. These ingredients kill pests and provide a pleasant, fresh fragrance.
