Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his/her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA Sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for registration review.
2. Make the label changes listed below before you release the product for shipment.
 - a. Replace "EPA Reg. No. 36488-___" with "EPA Reg. No. 36488-51" on the "**MASTER LABEL—OUTER CONTAINER**" and the "**MASTER LABEL – LABEL FOR BAIT STATION**".
 - b. From the list of "**MASTER LABEL – OPTIONAL CLAIMS**", delete "No loose pellets [to spill or scatter]".

Signature of Approving Official:

Date:

JUN 17 2010

This product is in full compliance with EPA's revised May 28, 2008, "Risk Mitigation Decision for Rodenticides".

The Confidential Statement of Formula (CSF) dated February 10, 2010 is accepted. That CSF describes the only formulation that may be used for this product.

If you were to add a reference to the company's website to any label or labeling for this product, that website then would constitute labeling under Section 2(p)(2)(B) of FIFRA and be subject to review by the Agency. If the website were to contain false or misleading information, the product would be misbranded, as defined in Section 2(q)(1)(A) of FIFRA, and unlawful to sell or distribute under Section 12(a)(1)(E) of FIFRA. 40 CFR §156.10(a)(5) lists categories of statements that are among those that EPA considers to be false or misleading. Regardless of whether a website is referenced on the label or labeling of a pesticide product, claims made on the website may not differ substantially from the claims approved for the product through the registration process. If EPA finds that a website contains false or misleading statements or claims substantially different from those accepted for the product, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Submit a copy of each element of final printed labeling for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

If you have any questions regarding this letter, you may contact Dr. William W. Jacobs by phone at 703-305-6406, by FAX at 703-308-0029, or via e-mail at jacobs.bill@epa.gov.

Sincerely yours,

John Hebert
Product Manager 07

MASTER LABEL – OUTER CONTAINER FRONT PANEL (Page 1 of 1)

BROMETHALIN MOUSE BAIT STATION

THIS BAIT STATION IS NOT TAMPER-RESISTANT
Use Indoors Only in Areas Inaccessible to Children and Pets

ACTIVE INGREDIENT:	BY WT.
Bromethalin.....	0.01%
OTHER INGREDIENTS:.....	99.99%
TOTAL:.....	100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION: (See side [back] panel for additional precautionary statements)

ACCEPTED
With COMMENTS
In EPA Letter Dated:
JUN 17 2010
Under the Federal Insecticide, Fungicide
and Rodenticide Act, As amended, for the
pesticide Registered under EPA Reg. No:
36488-51

NET CONTENTS:

[Contains] X [disposable] [prefilled] bait station[s] containing 0.75 oz. (21.2 g) bait

MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 1 of 3)

PRECAUTIONARY STATEMENTS:

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, or using tobacco.

FIRST AID	
Have label with you when obtaining treatment advice.	
If swallowed:	<ul style="list-style-type: none">- Call a poison control center, doctor or 1-800-858-7378 immediately for treatment advice.- Have person sip a glass of water if able to swallow.- Do not induce vomiting unless told to do so by the poison control center or doctor.- Do not give anything by mouth to an unconscious person.
If on skin or clothing:	<ul style="list-style-type: none">- Take off contaminated clothing.- Rinse skin immediately with plenty of water for 15-20 minutes.- Call a poison control center or doctor for treatment advice.
TREATMENT FOR PET POISONING	
If an animal eats this bait, call a veterinarian at once.	
NOTE TO PHYSICIAN OR VETERINARIAN	
Contains the nerve poison Bromethalin. This product is not an anticoagulant rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.	

ENVIRONMENTAL HAZARDS:

This product is toxic to fish, birds and other wildlife. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water.

MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 2 of 3)

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Dispose of product container, bait station, and used, spoiled, or unconsumed bait as specified on this label.

USE RESTRICTIONS:

DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, OR NONTARGET WILDLIFE. This product may only be used to control house mice inside homes, industrial, commercial, agricultural and public buildings. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

SELECTION OF TREATMENT AREAS: Determine areas where house mice will most likely find and consume bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where house mice or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:

1. Remove bait station from package.
2. Place bait station on the floor, with flat side down, in areas where signs of house mice have been seen in the types of buildings identified under **USE RESTRICTIONS**.

Use one bait station per placement. If more than one bait station is used, space the stations 8 to 12 feet apart in suitable locations (see **SELECTION OF TREATMENT AREAS**) in infested buildings. After several days, inspect bait stations and replace them if their contents have been consumed or are heavily soiled. If no feeding has occurred after three days, bait stations may be moved to other appropriate locations in the building where there is evidence of feeding.

MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 3 of 3)

Baiting Strategy: Highest bait consumption is expected to occur on the first day or two after treatment begins. Normally, the volume of bait consumed will be significantly less with bromethalin baits than with anticoagulant baits. Although one night's feeding will usually provide a lethal dose, maintain an uninterrupted supply of bait for at least one week to provide all house mice a chance to feed on the bait. Continue baiting until at least 4 days have passed without signs of new feeding by house mice.

Follow-Up: Wearing gloves, collect and properly dispose of all dead animals and leftover bait. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

STORAGE AND DISPOSAL:

STORAGE: Store in original container in a cool, dry place inaccessible to children and pets.

DISPOSAL: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Note: Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

MASTER LABEL – OPTIONAL CLAIMS (Page 1 of 1)

[Additional - Optional Marketing/Advertising Claim]

- Palatable bait formulation
- Contains Bromethalin
- 0.01% Bromethalin block
- Ready to use
- Disposable bait station
- For indoor use.
- For use in Attics, Kitchens, Basements, Garages at locations consistent with the limitations set for in the **DIRECTIONS FOR USE**
- Contains: (x no. of) prefilled, disposable bait station(s)
- Pre-filled bait station[s]
- Pre-baited
- No need to touch the bait when placing the bait station
- Bait station conceals bait from view
- Bait station
- No loose pellets-[to spill or scatter]
- Formulated for house mouse control
- Controls house mice
- Kills house mice
- Kills-house mice in the home
- For use indoors for control of house mice
- For indoor house mouse control
- Kills Anticoagulant Resistant House Mice
- House Mice may consume a lethal dose in a single night's feeding, but it can take two or more days from the time of bait consumption for these mice to die. House mice cease feeding after consuming a toxic dose.
- This product is effective against anticoagulant-resistant house mice.
- Kills house mice dead
- Helps reduce house mouse problems
- Dual entry design
- House mice enter and feed inside the bait station
- Pre-baited station
