Attention Mr Mark A Mongiovi

Decision 458492
R310 5-919110
1150

Note Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number

On the basis of information furnished by the registrant the above named pesticide is hereby registered/reregistered under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA)

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment the Administrator on his motion may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received an application for this new registration on December 7 2011. EPA grants this request under the authority of section 3(c)(5) of FIFRA provided that you

Notice of Reregistration (continued)
EPA Reg No 36488 62

- A Submit and/or cite all data required for registration/reregistration of your product when the Agency requires all registrants of similar products to submit such data
- B Make the following label changes before you release the product for shipment
 - 1 revise your registration number to EPA Reg No 36488 62 and
 - 2 follow the Minimum Type Sizes for Final Printed Label enclosure
- C Per 40 CFR 156 10(a)(6) submit one copy of your final printed labeling before you release the product for shipment

As defined in 40 CFR 152 3 final printed labeling means the label or labeling of the product when distributed or sold Clearly legible reproductions or photo reductions will be accepted for unusual labels Note that a clean copy of the master label in most cases does not meet the definition of final printed labeling

A copy of your label stamped Accepted is enclosed for your records

Reference to Website on Label

Should you wish to add a reference to the company s website on your label please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency If the website is false or misleading the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E) 40 CFR 156 10(a)(5) list examples of statements EPA may consider false or misleading In addition **regardless of whether a website is referenced on your product s label** claims made on the website may not substantially differ from those claims approved through the registration process Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration the website will be referred to the EPA s Office of Enforcement and Compliance Assurance

Confidential Statement of Formula

The acceptable Confidential Statement of Formula (CSF) for this product is dated December 6 2011 (Basic Formulation) All other versions are obsolete

Page 3

Notice of Reregistration (continued)
EPA Reg No 36488-62

With the above revisions this product is in full compliance with the Agency's revised May 28 2008 *Risk Mitigation Decision for Ten Rodenticides* and is consistent with the 1998 Rodenticide Cluster Reregistration Eligibility Decision (RED) document

If these conditions are not complied with the registration will be subject to cancellation in accordance with FIFRA section 6(e) Your release for shipment of the product constitutes acceptance of these conditions

If you have any questions or comments regarding this letter please contact Mr Dan Peacock by phone (703- 305-5407) or e mail (peacock dan@epa gov)

Each bait station contains one 0.75oz (21.2g) bait block

MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 1 of 3)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION Harmful if swallowed Keep away from children domestic animals and pets Wash thoroughly with soap and water after handling and before eating drinking chewing gum or using tobacco Any person who handles bait refills a station or retrieves carcasses or unused bait must wear gloves

FIRST AID	
Have label with you when obtaining treatment advice	
If swallowed	<p>Call a poison control center doctor or 1 800 858 7378 immediately for treatment advice</p> <p>Have person sip a glass of water if able to swallow</p> <p>Do not induce vomiting unless told to do so by the poison control center or doctor</p> <p>Do not give anything by mouth to an unconscious person</p>
If on skin or clothing	<p>Take off contaminated clothing</p> <p>Rinse skin immediately with plenty of water for 15 20 minutes</p> <p>Call a poison control center or doctor for treatment advice</p>
TREATMENT FOR PET POISONING	
If animal eats bait call veterinarian at once	
NOTE TO PHYSICIAN OR VETERINARIAN	
<p>Contains the nerve poison Bromethalin This product is not an anticoagulant rodenticide For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors loss of hind limb use or seizures for animals) limit absorption by either emesis or gastric lavage Sublethal symptoms if present would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid</p>	

ENVIRONMENTAL HAZARDS

This product is toxic to fish birds and other wildlife Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

READ THIS LABEL and follow all use directions and use precautions Use only for the sites pests and application methods described on this label

IMPORTANT Do not expose children pets or other nontarget animals to rodenticides To help prevent accidents

- 1 Store product not in use in a location out of reach of children and pets
- 2 Dispose of product container bait station and used spoiled or unconsumed bait as specified on this label

MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 2 of 3)

USE RESTRICTIONS

This bait station may be used in indoor areas accessible to children consistent with all use restrictions and other requirements indicated in this label **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS** This product may only be used to control house mice inside homes and other residential buildings Do not place bait station in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food

SELECTION OF TREATMENT AREAS Determine areas where house mice will most likely find and consume bait Generally these areas are along walls by gnawed openings in corners and concealed places between floors and walls or in locations where house mice or their signs have been seen Remove as much alternative food as possible

APPLICATION DIRECTIONS

- 1 Remove bait station from package
- 2 While wearing gloves place one block of bait in the bait station See additional GRAPHICS AND TEXT
- 2 Place bait station on the floor with flat side down in areas where signs of house mice have been seen in the types of buildings identified under **USE RESTRICTIONS**

Use one bait station per typical placement If more than one bait station is used space the stations 8 to 12 feet apart in suitable locations (see **SELECTION OF TREATMENT AREAS**) in infested buildings After several days inspect placements and refill bait stations if contents have been consumed or are contaminated If no feeding has occurred within three days bait stations may be moved to other appropriate locations in the building where there is evidence of feeding

[Baiting Strategy Highest bait consumption is expected to occur on the first day or two after treatment begins Normally the volume of bait consumed will be significantly less with bromethalin baits than with anticoagulant baits Although one night s feeding will usually provide a lethal dose maintain an uninterrupted supply of bait for at least one week to provide all house mice a chance to feed on the bait Continue baiting until at least 4 days have passed without signs of new feeding by house mice

Follow Up Wearing gloves collect and properly dispose of all dead animals and leftover bait To discourage reinfestation limit sources of rodent food water and harborage as much as possible If reinfestation does occur repeat treatment

[INSTRUCTIONS FOR OPENING FILLING REFILLING AND RECLOSING]

HOW TO OPEN

- 1 Apply gloves
- 2 Hold the bait station in one hand with your thumb on the back tab and middle finger on the front tab
- 3 While squeezing the front and back tabs lift the lock tab on the bottom center of the bait station and pull open

MASTER LABEL – OUTER CONTAINER BACK PANEL (Page 3 of 3)

HOW TO FILL THE BAIT STATION

1 Take one block and slide it down the holder post as far as it will go

HOW TO CLOSE

1 Take both hands and apply pressure to the top and bottom of the station without making contact with the block
2 Press the station lid and bottom until they meet and continue to press firmly until you hear a snap This is when the station has been closed properly

STORAGE AND DISPOSAL

PESTICIDE STORAGE Store in original container in a cool dry place inaccessible to children and pets

PESTICIDE DISPOSAL AND CONTAINER HANDLING Non refillable container Do not reuse or refill this container except as described in the directions for use **If empty** Place in trash or offer for recycling if available **If Partly Filled** Call your local solid waste agency for disposal instructions
Never place unused product down any indoor or outdoor drain
