PRECAUTIONARY STATEMENTS:

CAUTION

Hazards to Humans and Domestic Animals

Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards:

Do not contaminate domestic livestock or irrigation water supply or lakes or streams.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with labeling.

ALGAE CONTROL: Break open pouch and squeeze one tablet into 50 gallons of water. Remove algae growth mechanically before treatment and aerate water after treatment. Treatment effective for several weeks depending on conditions causing algae growth. Repeat when algae reappear. For heavy growth it may be necessary to repeat treatment in 6 days. PRECAUTION: Treatment may injure water hyacinths and water lilies. See explanation below to determine gallon capacity of fishpool or pond. Distribute tablets uniformly throughout the pool or pond area.

RECTANGULAR OR SQUARE POOLS: Multiple length times width times average depth; then multiply the result by 1.5. This will give the approximate number of gallons to treat.

CIRCULAR POOLS: Multiply the diameter by itself. Then multiply this number by the average depth. Multiply this total by 5.9 to get gallons treated.

IRREGULAR SHAPED POOLS: Multiply the long diameter by the short diameter. Multiply the total by the average depth and this total by 5.9 to get number of gallons treated.

STORAGE AND DISPOSAL:

Store in a dry place. Do not contaminate water, food or feed. Do not reuse container. Wrap container and put in trash collection.
