

DIRECTIONS

Initial Application. To a cleaned pool or pool free of visible algae add 1 gallon to 50,000 gallons of water, or ratio thereof. If visible algae are present treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear repeat this treatment procedure as necessary. When pool is free of visible algae use the recommended maintenance dose.

Maintenance Dose: Use one quart per 50,000 gallons of water every 5 to 7 days. When weather is hot or bathing load is heavy, use this dosage every 5 days or as necessary.

Booster Dose: Immediately after every rain add one quart per 50,000 gallons of water as above.

Important: Follow above directions without fail, even when pool is not used. Algae growth must be fought at all times.

Pool-side surfaces: After cleaning surfaces, use one oz. to four gallons of water for sanitizing or one oz. to two gallons of water for disinfecting. "Apply so as to thoroughly wet surfaces with the recommended use solutions."

Alga-Rid algaecide is efficient, economical and stable in use dilution.

Alga-Rid is compatible with all chemicals used in pool water and will not damage tile, concrete, metal, or plastics.

Alga-Rid keeps pool water free and sparkling, clear of visible algae, algal slime and green brown colors.

Alga-Rid improves filter operation and cuts down need for other chemicals.

Alga-Rid imparts tone and a pleasant "feel" to swimming pool water.

Do not reuse container. Destroy when empty.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water.

Apply this product only as specified on this label.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. "Measures against circulatory shock, respiratory depression and convulsion may be needed."
