This DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi. This DISINFECTANT is also a residual bacteriostat on environmental hard surfaces, inhibiting the growth of odor producing bacteria in areas of high moisture and on moist surfaces when used regularly and as directed.

This DISINFECTANT is also an excellent deodorant. Use it to control odors especially those that are microbial in nature.

This DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining to porcelain, enameled surfaces, glass, tile, plastics and most common metals.

CAUTION

Harmful if swallowed. Avoid getting in eyes or on skin. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Avoid contamination of food or foodstuffs. Avoid breathing spray mist.

Rinse empty container thoroughly with water and discard it.
