MYRA-CYN

CLEANER-DISINFECTANT-DEODORIZER-FUNGICIDE-GERMICIDAL

ACTIVE INGREDIENTS

Didecyl dimethyl ammonium chloride 4.5%

INERT INGREDIENTS: ... 95.5%
100.00%

AOAC PHENOL COEFFICIENTS

Staph. aureus (ATCC No. 6538) 100
Salmonella typhosa (ATCC No. 6536) 50

FOR PROFESSIONAL, INSTITUTIONAL AND INDUSTRIAL USE ONLY."

WARNING: KEEP OUT OF REACH OF CHILDREN

SEE RIGHT PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS.

NET 1 GALLON

CLEANER-DISINFECTANT-DEODORIZER-FUNGICIDE-GERMICIDAL

For Hospital and Institutional Use

WARNING — Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID: — In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.

DIRECTIONS TO USE: — Apply MYRA-CYN to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

For Hospitals & Nursing Homes: add two ounces per gallon of water.

At two ounces per gallon use-level, MYRA-CYN is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and pathogenic fungi. Germicidal performance against the first four organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance was determined against T. interdigital by the AOAC Fungicidal Test.

For Schools, Institutional and Industrial Users: Add one ounce per gallon of water.

At one ounce per gallon use-level, MYRA-CYN delivers excellent cleaning and is germicidal. It is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and Trichophyton interdigitale, the athlete's foot fungus. The same AOAC test used above to confirm suitable performance for hospitals were used.

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. MYRA-CYN is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

Two ounces of MYRA-CYN per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.

FOR PROFESSIONAL, INSTITUTIONAL AND INDUSTRIAL USE ONLY

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
