CLEANER-DISINFECTANT-DEODORIZER-FUNGICIDE-GERMICIDAL

For Hospitals and Institutions

PRECAUTIONARY STATEMENTS HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS
WARNING Keep out of reach of children. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.
STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply MYRA-CYN to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

For Hospitals & Nursing Homes, add two ounces per gallon of water.

At two ounces per gallon use-level MYRA-CYN is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli* and pathogenic fungi. Germicidal performance against the first four organisms has been confirmed by the AOAC Use Dilution Test. Fungicidal performance was determined against *T. interdigital* by the AOAC Fungicidal Test.

For Schools, Institutional and Industrial Users, Add one ounce per gallon of water.

At one ounce per gallon use-level MYRA-CYN delivers excellent cleaning and is germicidal. It is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli* and *Trichophyton interdigital*, the athlete's foot fungus. The same AOAC test used above to confirm suitable performance for hospitals were used.

Cross Contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. MYRA-CYN is formulated for this problem area. It both

cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross contamination.

Two ounces of MYRA-CYN per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.

DISINFECTING: Before disinfecting, pre-clean surfaces as directed above. Then prepare 2 oz. of MYRA-CYN per gallon of water and thoroughly wet surface to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean, damp cloth.

FOR PROFESSIONAL, INSTITUTIONAL AND INDUSTRIAL USE ONLY

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place away from any mixture of direct sunlight. Do not stack over 4 cases high. Open containers carefully followed by immediate closure once diluted. If leaked or spilled, soak up material separate and away from other pesticides, fertilizer, food and feed.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide spray mixture or rinse water that cannot be used according to Federal or approved State procedures under subtitle C of the Resource Conservation and Recovery Act. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty container. Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning or dispose of in a sanitary landfill or by incineration if allowed by state and local authorities. If burned, stay away from smoke.
