Attention: Robert Munion

Gentlemen:

Subject: Strike Bac Detergent Disinfectant .5 Oz
EPA Registration No. 37265-28
Your Submission Dated November 25, 1987

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Delete all sanitization claims on the label.
 - b. Immediately below the heading "Directions for Use," add the following misuse statement:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
 - c. Delete the phrase "Only For Sale to and Storage by Service Persons."
 - d. Revise the side panel statement to read "See side panel for additional precautionary statements."
 - e. Delete the words "Phosphate Free."
2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

OCT 17 1988

Under the Federal Insect
Fungicide, and Rodenticide Act
amended, for the pest
registered under EPA Reg
37265-2

This product is a [REDACTED] concentrated detergent/disinfectant which provides
deodorizing, disinfection and sanitization. This product has been designed especially for
homes, schools, food processing plants and other institutions where housekeeping is of prime
importance in controlling the hazards of cross contamination.

When diluted at the rate of 1/2 ounce per gallon of water, this product is an effective disinfectant
against the organism *Pseudomonas aeruginosa* and meets all the requirements for hospital use. When used
as directed, this product is formulated to disinfect inanimate hard surfaces such as walls, floors, sink tops,
chairs, telephones, and bed frames. For larger areas such as operating rooms, patient
restrooms, this product is designed to give both general cleaning and disinfecting.
In addition, this product deodorizes those areas which are generally hard to keep fresh smelling
such as empty garbage bins and cans, toilet bowls and any other areas with bare floors
and walls.

DIRECTIONS FOR USE

DISINFECTION: To disinfect hard inanimate surfaces (such as walls, floors, sink tops, etc.) use 1/2
product per gallon of water. Apply solution with mop, brush, or sponge. Let stand for 10 minutes.
For floors, mop, push broom, add 1/2 ounce product to 1/2 gallon of water. Swirl
using a scrub brush with mop, making sure to get under the mop. Let stand for 10 minutes.
For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh
solution for each application. This product exhibits effective virucidal activity against
Pseudomonas aeruginosa (ATCC 27812), *Escherichia coli* (ATCC 8739), *Staphylococcus aureus* (ATCC 29212),
Staphylococcus epidermidis (ATCC 12228), *Staphylococcus saprophyticus* (ATCC 29512), *Staphylococcus*
epidermidis, *Staphylococcus aureus*, *Enterobacter aerogenes*.

At this level, the product is also fungicidal against the pathogenic fungi *Trichophyton menthagrophytes*,
VIRUCIDAL ACTIVITY: The product when used in concentrations of 1/2 ounce per gallon of water exhibits effective virucidal activity against influenza A, Adenovirus type 12,
Herpes Simplex (oculocutaneous agent of fever blisters), Herpes Simplex (genital agent of genital herpes),
Poliovirus (agent of poliomyelitis), and Varicella virus (agent of chicken pox). The product is also
effective against the following viruses: Herpes Simplex (oculocutaneous agent of fever blisters),
Herpes Simplex (genital agent of genital herpes), Poliovirus (agent of poliomyelitis), and Varicella virus (agent of chicken pox).
Primary tests have demonstrated that this product is an effective virucidal agent in the presence of organic soil (e.g., blood serum).*

MOLD AND MILDEWSTAT: This product prevents and controls mold and mildew on the
hard inanimate surfaces.

SANITIZATION: When used for sanitization, use 1/2 ounce per gallon of water. This product is an effective sanitizer when diluted with water to a concentration of 100 ppm.
This product is an effective sanitizer when diluted with water to a concentration of 100 ppm.
