

STRIKE BAC
DAIRY CLEANER/SANITIZER
MULTI-PURPOSE CLEANER SANITIZER FOR THE
DAIRY INDUSTRY
CLEANS · REMOVES MILKSTONE · MIXING IS EASY · SANITIZES

ACTIVE INGREDIENTS:

n-Alkyl (60% C ₁₂ , 30% C ₁₄ , 5% C ₁₆ , 5% C ₁₈) dimethyl benzyl ammonium chlorides	5.0%
n-Alkyl (68% C ₁₂ , 32% C ₁₄) dimethyl ethylbenzyl ammonium chlorides	5.0%
Phosphoric Acid	30.0%
INERT INGREDIENTS	60.0%
Total	100.0%

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Keep out of Reach of Children. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water, for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL

- Do not contaminate water, food or feed by storage or disposal
- Open dumping is prohibited
- Do not reuse empty container

PESTICIDE DISPOSAL

Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.

CONTAINER DISPOSAL

Triple rinse (or equivalent) and dispose in a incinerator or landfill approved for pesticide containers, or bury in a safe place.

DIRECTIONS FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Strike Bac Dairy Cleaner/Sanitizer easily and quickly dispersed in hot or cold water up to 1700ppm of hardness (as calcium carbonate) to form a completely uniform solution.

When used at a 1:500 aqueous dilution (200ppm active quaternaries) may be used on food processing and dairy equipment without the necessity of a final potable water rinse.

CLEANING BULK MILK TANKS

As soon as possible after milk has been removed from bulk tanks, rinse tank completely with cold water and allow to drain. Place 4 gallons of warm water 120°F in tank and add 1 ounce (2 tablespoons) of Strike Bac Dairy Cleaner/Sanitizer to the water in the tank. Scrub tank, mixers and covers and then allow to drain.

SANITIZING MILK EQUIPMENT AND COW UDDERS

Previously cleaned milking equipment, pails, inflations and tubing should be sanitized prior to milking operations by preparing a 200ppm solution of active quaternaries by mixing 1 ounce (2 tablespoons) of Strike Bac Dairy Cleaner/Sanitizer in 4 gallons of water. Scrub or dip equipment into the solution and allow to drain prior to beginning of milking operation.

Use a clean single service towel for each animal to wipe udders with the above sanitizing solution prior to milking. Never reuse towel or drip used towel back into solution. At least one minute contact time is required to sanitize surfaces wetted with the recommended use solution.

Always use a freshly prepared solution daily or more frequently if the solution becomes soiled. Always use non-corrodible utensils.

HARD WATER TOLERANCE

This product fulfills the criteria of Appendix F of Grade A Pasteurized Milk Ordinance 1965 recommendation of the U.S. Public Health Service in waters up to 600ppm of hardness calculated as calcium carbonate, when tested the AOAC Germicidal and Detergent/Sanitizing Official Method. Consult your milk inspector or health officer for recommendations on your local program.
