

PLANK AND GUDGE R WASHING: Use 1 quart of Disinfectant per 4 gallons of water. Use a separate clean towel for each cow. Towel dip a used towel back into the disinfectant solution. Prepare fresh solution often. **WASHING:** Prepare solution in non-corrodible containers. Cleaners' steel pails or discarded milk cans may become visible soiled or turbid. To prevent this, add a small amount of household ammonia to make alkali woodder to each gallon. Wash with clean towel before attaching to milker.

FOR FEEDING RUMEN GARBAGE IN MILKING TRUCKS: INDUSTRIAL WASTE RECEPTACLES AND GARBAGE HANDLING: PRECLEAN with a suitable detergent and water. Then apply, working to the bottom, 1 quart of THIS PRODUCT per gallon of water. The product should be tested for effectiveness against MYCOBACTERIA TUBERCULOSIS. For additional information, contact your local health department. No special product is desired.
