

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

AUG 31 1995

Genlabs
5568 Schaefer Avenue
Chino, Ca 91710

Attention: Robert Munion
Vice President

Subject: 10% Quat Rinse
EPA Registration Number 37265-40
Your Submission Date June 30, 1995
EPA Receive Date July 11, 1995

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to update your label will be acceptable provided that you make the labeling changes in accordance with PR Notice 95-1 listed below before you release the product for shipment bearing the amended label.

Add the heading "Environmental Hazards" to the label and add the following statements directly under the heading.

"This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."

This "Environmental Hazards" section should be place under the Precautionary Statements section. Therefore, you will now have two subheadings under the Precautionary Statements (i.e., "Hazards to Humans and Domestic Animals", and Environmental Hazards). The Storage and Disposal section should be relocated to the Directions for Use.

10% QUAT RINSE

ACTIVE INGREDIENTS:

Akly (C14, 50%; C12, 40%; C16, 10%)

dimethyl benzyl ammonium chloride.....10.00%

INERT INGREDIENTS:.....90.00%

TOTAL INGREDIENTS:.....100.00%

This product fulfills the criteria of Appendix F of the Grade "A" Pasteurized Milk Ordinance 1965 Recommendations of the U.S. Public Health Service in water up to 700ppm of hardness calculated CaCO3 when tested by the A.O.A.C. Germicidal and Detergent Sanitizers "Official Method". This disinfectant is effective at 1 oz./gal. against *Pseudomonas aeruginosa* PRD-10, *Salmonella choleraesuis* ATCC 10708, and *Staphylococcus aureus* ATCC 6538 when tested by the A.O.A.C. Use Dilution Test Method for pre-cleaned, non-porous hard surfaces. This disinfectant is an effective virucide against influenza virus Type A Brazil at 1 oz./gal. on pre-cleaned, non-porous hard surfaces.

KEEP OUT OF REACH OF CHILDREN DANGER

(See Additional Precautions on Side Panels)

STATEMENT OF PRACTICAL TREATMENT In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately.

NOTE TO PHYSICIAN: Probable local damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

IN EPA LABELING

AUG 31 1985

Under the authority of the
Federal Insecticide, Fungicide,
and Rodenticide Act, 1947
Registered under EPA Reg. No.
37265-40

When used as directed, this product is an effective disinfectant, deodorant. This product mixes well with water to form clear, stable use solutions that are non-staining to most common metals, plastics and tile.

PRECAUTIONARY STATEMENTS HAZARDOUS TO HUMAN AND DOMESTIC ANIMALS DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place away from any moisture or direct sunlight. Do not stack over 4 cases high. Open containers carefully followed by immediate closure once diluted. If leaked or spilled, soak up material separate and away from other pesticides, fertilizer, food and feed.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide, spray mixture, or rinse water that cannot be used according to Federal or approved State procedures under subtitle C of the Resource Conservation and Recovery Act. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty container. Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration if allowed by state and local authorities. If burned, stay away from smoke.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced on any surface or body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

DISINFECTION IN HOSPITALS, RESTAURANTS, HOMES AND PUBLIC ROOMS: This product may be used on floors, walls, woodwork, bedframes, furnishings and equipment. Types of surfaces suitable for disinfection include glass, smooth metal washable painted wood or metal, vinyl, glazed porcelain, plastic, furnished leather, finished wood and similar non-porous, hard, smooth surface.

Always pre-clean surfaces with suitable detergent before disinfection. After cleaning, add 1 oz. of disinfectant per gallon of water for disinfecting contagious disease areas, etc. This solution should be applied using a mechanical spraying device. Surface should be wet for 10 to 15 minutes to assure proper germicidal action. With this concentration of disinfectant, surfaces should be re-used. Prepare fresh solution if soiled.

FLANK AND UDDER WASHING: Use water. Use a separate clean towel for each animal. Prepare fresh solution in non-corrodible containers. Solutions if they become visible soiled allow udder to air dry with clean towel before milking.

FOR DEODORIZING GARBAGE CANS, WASTE RECEPTACLES, AND GARAGE FLOORS: Pre-clean with a suitable detergent and water. Apply 2 oz. of THIS PRODUCT per gallon of water. Solution has been tested for effectiveness against odors and must not be relied upon when a toxic odor is present.

Do not discharge effluent containing this product into streams, ponds, estuaries, oceans, or other bodies of water in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES). If you have been notified in writing prior to the discharge of effluent containing this product to a body of water, notifying the local sewage treatment plant and contact your State Water Board or other appropriate authority.
