US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	EPA REGISTRATION NO. 37265-55	DATE OF ISSUANCE FEB 3 1986
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Spa Granules	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
<div style="border: 1px solid black; padding: 10px;"> <p> <input type="checkbox"/> General Chemical Corporation 5568 Schaefer Avenue Chino, CA 91710 </p> </div>		
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with the provisions of section 3(c)(7)(A) of the Act, since you have agreed that you will submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5), when the Agency requires all registrants of similar products to submit such data. If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of the Act.</p> <p>This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to human. There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.</p> <div style="text-align: right; margin-top: 20px;">  Jorge E. GENERAL CHEMICAL CORP.
SPA GRANULES
 Chlorinating Concentrate

Active Ingredient:
 Sodium Dichloro-S-Triazinetrione... 99.5%
Inert Ingredients..... 0.5%
 Available Chlorine..... 62%

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS
 DANGER. HIGHLY CORROSIVE. CAUSES SKIN AND EYE DAMAGE. MAY BE FATAL IF SWALLOWED. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. WEAR GOGGLES WHEN HANDLING. IRRITATING TO NOSE AND THROAT. AVOID BREATHING DUST. REMOVE AND WASH CONTAMINATED CLOTHING BEFORE REUSE.
ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.
PRACTICAL TREATMENT (FIRST AID): If swallowed lead bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

DANGER:
KEEP OUT OF REACH OF CHILDREN
 See back panel for other precautions and first aid.
 EPA EST. NO. 37265 CA-01 EPA REG. NO. 37265-50
NET 2 LBS.

INSTRUCTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

FOR SPAS AND HOT TUBS

1. Chlorinate: Add 1/2 oz. SPA GRANULES per 500 gallons of water to the spa. Wait 5 minutes then check chlorine residual. Residual chlorine should read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2 to 3 ppm range, it may be entered.
2. Maintain: SPA GRANULES should be added daily or as necessary to maintain a 2 ppm residual chlorine. Frequent checks should be made of residual chlorine with a reliable test kit. The SPA GRANULES should be broadcast over the surface and allowed at least 5 minutes mix time before swimming.
 Note: Heavy bather usage or the use of oils or lotions may increase the chlorine demand.
3. Check pH: pH should be maintained with a reliable kit and maintained in the range for clear, sparkling water. pH can be decreased by adding a suitable sodium bisulfate or increased by adding a suitable agent such as soda ash. Such agent should be followed directly.
4. Superchlorination: It is a good practice to superchlorinate each 2 to 4 weeks. To superchlorinate add 1 lb. of SPA GRANULES for each 500 gallons of water. Cleanse, vacuum and cycle through filter resume program when chlorine is 20 to 30 ppm.

SUPER CHLORINATION

1. It is good practice to superchlorinate each 2-4 weeks. To superchlorinate add 1 lb. of SPA GRANULES for each 500 gallons of water. Cleanse, vacuum and cycle through filter resume program when residual chlorine falls to 1.0 - 1.5 ppm.
2. SPA GRANULES contain a "built-in" conditioner (Cyanuric Acid). If it is used no further additions of Isocyanuric Acid will be required.

GENERAL NOTES

SPA GRANULES are a concentrated form of chlorine. They are 100% active chlorine. Since it is granular, SPA GRANULES can be added to the pool without splashing associated with liquids. SPA GRANULES is fast dissolving. It is high strength for at least one year if kept in a cool, dry place. SPA GRANULES contain a built-in stabilizer to reduce chlorine loss in sunlit pools. It contains no stabilizers which can collect on the walls of the heater tubs and on the sides of the pool.

STORAGE AND DISPOSAL

Keep product dry and in tightly closed container when not in use. Store in a well-ventilated area away from heat or open flame. In case of decomposition, isolate if possible and flood with large amounts of water to dissolve all material. Place in trash collection or dispose in approved landfill area, or incinerate.

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. This warranty does not extend to product used contrary to label instructions, or under abnormal use, conditions or conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of use. Seller disclaims all other warranties, expressed or implied including any warranty of FITNESS or MERCHANTABILITY.
