RED DEVIL

No.401

Clear Wood PRESERVATIVE

WHAT IT IS: Red Devil Clear Wood Preservative No. 401 is a deep penetrating system that imparts to wood surfaces effective preservation and water repellency to minimize warping, swelling and rot. To be used for exterior wood before painting and for unfinished woods exposed to the weather.

WHERE TO USE: For use on structural lumber, fences, trellises, millwork, shingles, siding, doors, frames and sash where there is not contact with the ground.

HOW TO USE: Wood must be clean, dry and previously unpainted. (Do not use steel wool.) Apply by brush, roller, spray or dip. Thoroughly cover cut ends and joints. Do not apply in hot sunlight. If painting is ever desired, surface must be adequately weathered.

For extra protection apply a second coat of Wood Preservative within one hour of the first coat. Where dipping method of application is used, keep wood in the Preservative for minimum of five minutes.

MAHOGANY

COVERAGE: Approximately 400 square feet per gallon. Coverage can vary depending upon method of application and roughness of wood.

CLEAN-UP: Clean equipment promptly with Red Devil Brush Cleaner or mineral spirits.

CAUTION: Contains Petroleum Distillates. Harmful if swallowed. If swallowed do not induce vomiting. Call physician immediately. Avoid contact with skin, eyes or clothing. In case of contact, immediately remove contaminated clothing and wash skin with soap and water; for eyes flush with water and get medical attention. Wash clothing before reuse. Do not reuse container. Destroy it by perforating or crushing. Bury or discard in a safe place.

This product is Toxic to fish. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of waste. Apply this product only as specified on this label.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.
