Alan Wagner, D.V.M.
Smith Kline Beecham Animal Health
P.O. Box 971039
Miami, FL 33197

Dear Dr. Wagner:

Subject: Adams Flea and Tick Mist
EPA Registration No. 37425-2
Your Application Dated September 11, 1990

The proposed amendment to the registration of the product cited above under the Federal Insecticide, Fungicide, and Rodenticide Act changing the name of the product from Adams Flea and Tick Mist II to Adams Flea and Tick Mist is acceptable. A stamped copy of the label is enclosed for your records.

The Confidential Statement of Formula (CSF) submitted with your application is acceptable and has been made a part of the file.

Sincerely yours,

PH

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

HUMAN: Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using.

ANIMAL: Avoid treatment of nursing puppies and kittens. If treatment is necessary, follow special instructions. Do not oversaturate, especially on cats. Avoid spraying of genital areas.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not add directly to water. Do not apply where runoff is likely to occur.

PHYSICAL OR CHEMICAL HAZARDS: FLAMMABLE. Keep away from heat and open flame. Contains alcohol. Do not apply to painted or finished wood surfaces.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Only
In a Well Ventilated Area

DOGS AND CATS

Remove safety cap and insert sprayer. Cover animal's eyes with hand and with a firm, fast stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

INSECTICIDE, REPELLENT & DEODORANT FOR DOGS - PUPPIES - CATS - KITTENS

KILLS
FLEAS - LICE - TICKS
TEMPORARILY REPELS
GNATS - FLIES - MOSQUITOES

Directions For Use (continued)

NURSING PUPPIES AND KITTENS

Spray only along back of or underneath and rub into coat.

PET'S SLEEPING QUARTERS

Spray around baseboards, doors, door frames, wall cracks, local area of floors. If mosquitoes or flies are present, lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the bedding is sprayed. After spray has been applied, remove old bedding and replace with fresh bedding. Treat pet with one of our registered flea and tick control products before allowing them to enter treated area.

HORSES

To control stable flies, horse flies and face flies, spray face, legs, flanks, top line and body areas commonly attacked by these flies. Repeat treatment as needed.
