

Cross-contamination is of major housekeeping concern not only in hospitals but in schools, institutions and industry. ADAMS SANI-MINT is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-contamination.

ADAMS SANI-MINT is an extremely effective one-step sanitizer for non-food contact surfaces. It cleans and sanitizes in waters up to 850 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

Two ounces of ADAMS SANI-MINT per gallon of water will deodorize surfaces in bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors. Prevents odor caused by mold and mildew.

**Precautionary Statements**

**Hazards to Humans and Domestic Animals**

**WARNING**

Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

**STORAGE and DISPOSAL**

THIS PRODUCT MUST BE KEPT UNDER LOCKED STORAGE SUFFICIENT TO MAKE IT INACCESSIBLE TO CHILDREN OR PERSONS UNFAMILIAR WITH ITS PROPER USE.

- DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.
- OPEN DUMPING IS PROHIBITED
- DO NOT RE-USE EMPTY CONTAINER

**PESTICIDE DISPOSAL**

Pesticide, spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

**CONTAINER DISPOSAL**

Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

**GENERAL**

Consult Federal, State or local disposal authorities for approved alternative procedures such as limited open burning.

**Directions for Use**

**GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ADAMS SANI-MINT is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide in the presence of moderate amounts of organic soil.

Apply ADAMS SANI-MINT to walls, floors and other hard (non-porous) non-porous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

**Disinfection** - To disinfect hard, non-porous hospital surfaces, add 2 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use-level, ADAMS SANI-MINT is also virucidal and fungicidal. At 1% oz. per gallon, ADAMS SANI-MINT will disinfect hard non-porous surfaces in schools, industry and non-medical institutions.

**Sanitizing** - To sanitize porous or non-porous, non-food contact surfaces, add 1 oz. per 2 1/2 gallons of water. Treated surfaces must remain wet for 30 seconds.

**For hospitals and nursing homes, add 2.5 oz. per gallon of water.** The broad spectrum activity of ADAMS SANI-MINT has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test:

- |                                |                                    |
|--------------------------------|------------------------------------|
| <i>Pseudomonas aeruginosa</i>  | <i>Klebsiella pneumoniae</i>       |
| <i>Staphylococcus aureus</i>   | <i>Enterobacter aerogenes</i>      |
| <i>Salmonella choleraesuis</i> | <i>Salmonella schottmulleri</i>    |
| <i>Escherichia coli</i>        | <i>Streptococcus faecalis</i>      |
| <i>Streptococcus pyogenes</i>  | <i>Shigella dysenteriae</i>        |
| <i>Proteus mirabilis</i>       | <i>Brevibacterium ammoniagenes</i> |

**AOAC Fungicidal Test** - ADAMS SANI-MINT is an effective fungicide against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, showers and bath areas, exercise facilities, etc.

**Virucidal Performance** - At 2 oz. per gallon use-level, ADAMS SANI-MINT was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), Adenovirus Type 5 (a causative virus in respiratory diseases), and Influenza A2 as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

**For schools, non-medical institutional and industrial uses:** At 1 1/2 oz. per gallon of water, ADAMS SANI-MINT delivers excellent cleaning and germicidal effectiveness. It is effective against *Staphylococcus aureus*, *Salmonella choleraesuis* and *Escherichia coli*. The same AOAC tests listed above to confirm suitable performance for hospitals were used.

**Sanitizing Non-Food Contact Surfaces (such as walls, floors, tables, etc.)** At 1 oz./2 1/2 gallon use-level, ADAMS SANI-MINT is an effective sanitizer in waters of up to 850 ppm hardness against *Staphylococcus aureus* and *Klebsiella pneumoniae* in the presence of 5% serum on hard porous and non-porous environmental surfaces.
