Adams Veterinary Research Laboratories, Inc.
Subsidiary of Rodden Laboratories
P.O. Box 971039
Miami, FL 33197

Dear Dr. Alan Wagner

Subject: Adams Flea and Tick Mite
EPA Reg. No. 37425-12
Application dated March 23, 1990

The proposed amendment to the registration of the product cited above under the Federal Insecticide Fungicide and Rodenticide Act requesting an alternate formulation is acceptable subject to the comments listed below. A stamped copy of the label is enclosed for your records.

- 1) Based on the current Confidential Statement of Formula (CSF) dated March 23, 1990 the product will not meet the label claim for the active ingredients. The percentage claimed in the ingredient statement for the active ingredients must be the same as the certified lower limit for the these ingredients listed in the CSF. A new CSF which agrees with the label declaration must be submitted or the label ingredients statement must be changed to agree with the current CSF.
- 2) Provide the upper and lower Certified Limits of the individually added Inerts in the CSF.

ADAMS[®] FLEA AND TICK MIST

PRECAUTIONARY STATEMENTS

Hazards to Humans
and Domestic Animals

CAUTION

HUMAN: Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using.

ANIMAL: Avoid treatment of nursing puppies and kittens. If treatment is necessary, follow special instructions. Do not oversaturate, especially on cats. Avoid spraying of genital areas.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not add directly to water. Do not apply where runoff is likely to occur.

PHYSICAL OR CHEMICAL HAZARDS: FLAMMABLE. Keep away from heat and open flame. Contains alcohol. Do not apply to painted or finished wood surfaces.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Only
in a Well Ventilated Area

DOGS AND CATS

Remove safety cap and insert sprayer. Cover animal's eyes with hand and with a firm, fast stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

INSECTICIDE, REPELLENT & DEODORANT FOR DOGS - PUPPIES - CATS - KITTENS

KILLS

FLEAS - LICE - TICKS

TEMPORARILY REPELS GNATS - FLIES - MOSQUITOES

ACTIVE INGREDIENTS:

Net Contents 32 fl. oz./946 ml

Directions For Use (continue)

NURSING PUPPIES AND KITTENS

Spray only along back or on fingertips and rub into coat.

PET'S SLEEPING QUARTERS

Spray around baseboards, doors, door frames, wall cracks, local area of floors. If mosquitoes or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered flea and tick control products before allowing them to enter treated area.

HORSES

To control stable flies, horse flies, deer flies and face flies, apply to face, legs, flanks, top line and body areas commonly attacked by these flies. Repeat treatment as needed.
