RESIDUAL 14 FLEA OFF

INSECTICIDE, REPELLENT & DEODORANT
FOR DOGS · PUPPIES · CATS · KITTENS

KILLS

FLEAS · LICE · TICKS

REPELS GNATS · FLIES · MOSQUITOES

**Precautionary Statement
WARNING**

Use Only In A Well Ventilated Area

HUMAN: Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using. May cause eye injury. Wear safety glasses or other protective eyewear.
ANIMAL: Avoid treatment of nursing kittens and puppies. If treatment is necessary follow special instructions.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not add directly to water. Do not apply where runoff is likely to occur.

PHYSICAL OR CHEMICAL HAZARDS:
FLAMMABLE: Keep away from heat and open flame. Contains alcohol. Do not put on brushed wood surfaces.

**STATEMENT OF PRACTICAL
TREATMENT**

IF IN EYES: Flush with plenty of water. Contact a physician immediately.
IF ON SKIN: Wash with soap and water. Get medical attention if irritation persists.

DIRECTIONS FOR USE

GENERAL USE

CATS AND DOGS

Remove safety cap and insert sprayer. Cover animal's eyes with hand and with a firm, fast stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose and eyes. Repeat spray neck, middle and hind quarters, switching legs last. For best penetration of spray to the skin, direct spray against the natural lay of the fur. On long haired dogs,

ACTIVE INGREDIENTS

- Pyrethrin
- Pyrethroid butadiene, technical
- N-Octyl bicycloheptene dicarboximide
- 2,2,4,5-tet (2) Butylated hydroxy to 2 for stability
- Or a proper insecticide
- INERT INGREDIENTS

Directions For Use (continued):

rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly coats ticks. Depending on reinfestation levels in the pet's environment, extended infestations and repellent control of up to 14 days have been demonstrated with "ADAMS FLEA OFF" 14 DAY RESIDUAL MIST, containing pyrethrin pyrethroids. Repeat treatment as needed.
* U.S. Patent Pending

PUPPIES AND KITTENS

Spray only along animal's back, or on your fingertips and massage into animal's fur.

PET'S ENVIRONMENT

For comprehensive control of fleas and ticks, it is essential to control both eggs and larvae which occur both indoors and outdoors. If
