

ADAMS Equine "Residual" Fly Mist/Wipe

PRECAUTIONARY STATEMENT WARNING

Adams Equine Residual Fly Mist/Wipe combines Oil of Aloe with other emollients to moisturize the skin and produce a show condition coat.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HORSES

Thoroughly brush the horse's coat, prior to application, to remove loose dirt and debris. For dirty horses, and as a preparation for show grooming, clean the coat with ADAMS KLEAN SHAM POO. Wait until coat is completely dry before applying MIST/WIPE.

Cover entire surface of animal with spray, but, avoid getting product into horse's eyes or other sensitive areas such as mouth or nose. Brush coat against grain while spraying to insure adequate penetration of product. As a wipe, apply liberally with a clean absorbent cloth or sponge. Make sure MIST/WIPE has completely dried before covering with any tack. For initial treatment, apply Equine Residual Fly Mist/Wipe daily for 2 to 3 days. As infestation subsides and protection builds, reapply every 5 to 10 days as needed. Also, reapply every time animal is washed or exposed to a heavy rain.
