Dear Dr. Alan R. Wagner

Subject: Adams Caniderm Mist
EPA Reg. No. 37425-18
Application dated March 22, 1990

The proposed amendment to the registration of the product cited above under the Federal Insecticide Fungicide and Rodenticide Act removing the active ingredient, MGK R-11, is acceptable subject to the comments listed below. A stamped copy of the label is enclosed for your records.

- 1) Based on the current Confidential Statement of Formula (CSF) dated March 22, 1990 the product will not meet the label claim for the active ingredients. The percentage claimed in the ingredient statement for the active ingredients must be the same as the certified lower limit for the these ingredients listed in the CSF. A new CSF which agrees with the label declaration must be submitted or the label ingredients statement must be changed to agree with the current CSF.
- 2) This change in formulation is only acceptable as a basic formulation change not as an alternate formula. Submit a new CSF with the proper block checked.
- 3) Provide the upper and lower Certified Limits of the individually added inerts in the CSF.
- 4) Submit the product chemistry data for the new formulation including the flashpoint of the product.

- 5) Submit a 1 year storage stability study. The formulated product must be analyzed for its active ingredients at time zero and for one year of storage. The storage must be under warehouse conditions of temperature and humidity using containers similar to those which will be used in the trade. This study must be submitted within 15 months of the date of this letter.
- 6) Provide the chemical identity and percentages of all components of the ingredients listed below. Include Chemical Abstracts Numbers for each component and a Material Safety Data Sheet.
 - a) [REDACTED]
 - b) [REDACTED]

Sincerely yours,

Phil Hutton
