PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INTRODUCTION: Mycodex® Nylar® Concentrate acts on the immature life stage of the flea, preventing the adult flea from developing. Flea eggs deposited on and larvae crawling into treated areas will not develop into adult fleas. Existing adult fleas and flea pupae are not affected.

If a high population of adult fleas (the biting stage) is present the use of an adulticide may be necessary for immediate relief. For best results, use Mycodex® Nylar® Concentrate prior to the flea season. When applied to surfaces where fleas are found, such as carpets, upholstered furniture, and pet sleeping areas, Mycodex® Nylar® Concentrate prevents adult flea emergence for 210 days.

Flea control on pets is important to prevent the introduction of adult fleas indoors. Treat pets with a registered Mycodex® flea control product to keep them from carrying adult fleas indoors.

METHOD AND RATE OF APPLICATION: Prepare a diluted spray solution by adding 1 oz. of Mycodex® Nylar® Concentrate to 1 gallon of water. Partially fill the mixing container with water, add Mycodex® Nylar® Concentrate. Shake, and fill to final volume. Shake before each use.

Apply at a rate of 1 gallon of diluted solution per 1,500 sq. ft. of surface area with any low pressure sprayer typically used for indoor applications. Treat all areas which may harbor fleas, including carpets, furniture, pet sleeping areas and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with treated surfaces until dry.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

This product is intended for sale exclusively through veterinary practices, clinics, and hospitals.
