

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. <b>37428-3</b>	DATE OF ISSUANCE <b>SEP 07 1994</b>
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>		
NAME OF PESTICIDE PRODUCT <b>O. K. Chlorine Tablets</b>		

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

O. K. Pool Service, Inc.  
 7295 Bird Road Street  
 Miami, FL 33155

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continuous reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

A stamped copy of the product label is enclosed for your records. Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

1. Refer to the enclosed Isocyanurate RED Attachment A for the necessary revisions to the Precautionary and Practical treatment statements of the subject label.
2. Chlorine in the product name must be changed to "Chlorinating". Refer to the enclosed PR Notice 75-5 in this regard.
3. Delete "and related compounds" from the Active Ingredient Statement.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL \_\_\_\_\_

4. Place the following Misuse Statement directly under the heading "Directions For Use": "It is a violation of Federal Law to use this product in a manner inconsistent with its labeling."
5. Under the Directions For Use add, "Reentry into treated swimming pools is prohibited above levels of 3ppm."

If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of this condition.

Ruth G. Douglas

Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (7504C)

**ISOCYANURATE RED ATTACHMENT A**

**LABELING:** (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"
2. Revise the Precautionary Statements to read:

**CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

**STATEMENT OF PRACTICAL TREATMENT.**

**IF SWALLOWED:** Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

**IF IN EYES:** Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

# O.K. CHLORINE TABLETS

## NEW SUPER 90 PLUS

TO OPEN: Place coin in groove, pry and lift lid off.

TO CLOSE: Place lid on container, press edges down snapping lid on.

**8 OUNCE            3" DIAMETER**  
**SLOW DISSOLVING TABLET**

**ACTIVE INGREDIENT:**  
Trichloro-s-triazinetrione  
and Related Compounds ..... 99.0%  
**INERT INGREDIENT:** ..... 1.0%  
(provides 89% available chlorine)

**20 TABLETS            NET WEIGHT: 10 lbs.**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER: SEE FIRST AID STATEMENT  
AND OTHER PRECAUTIONS ON SIDE PANEL**

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

SEP 07 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended for the pesticide  
registered under EPA Reg. No.  
37428-3

E.P.A. Registration No. 37428-3  
E.P.A.-EST. No. 7137-NJ 01

### DIRECTIONS FOR USE

1. Adjust water pH to 7.6-8.0 as determined by a test kit.
2. If the pool has not been previously stabilized, add conditioner or stabilizer (cyanuric acid). Follow the directions for use on the label for that product.
3. Place tablets in floating type chlorinator.
4. Add one tablet per 5,000 gallons of pool water to establish a chlorine residual of 1.0 to 3.0 ppm as determined by a test kit. Add more tablets as needed. Pool should not be entered until chlorine residual is 1.0 to 3.0.

**NOTE:** Due to local water and rain conditions it is strongly recommended that you have an 8 oz. sample of pool water analyzed at O.K. Pool Service once every 4-6 weeks, in order to maintain proper pH and total alkalinity in your pool water. Proper water chemistry is important to protect your pool's surface and equipment.

**STORAGE & DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container in open area if possible, and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area.

### REPAIRS - MAINTENANCE - PARTS - SERVICE

**MANUFACTURED BY:**  
**O. K. POOL SERVICE, INC.**  
 7295 Bird Road  
 Miami, Florida 33155  
 305-264-8400

Servicing swimming pools in Dade County since 1937

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive, causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

**FIRST AID (PRACTICAL TREATMENT):** If swallowed, drink large quantities of water. Do not induce vomiting. Call a physician immediately. Probable mucosal damage may contraindicate the use of gastric lavage. If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in Eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention. If Inhaled: Remove person to fresh air. Get immediate medical attention.

**CHEMICAL HAZARDS:** Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals, or any foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board Regional Office of the EPA.

**SPECIAL PRECAUTIONS**

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a prescribed feeder to avoid discoloration of liner or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual falls.
6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pail. When adding this product to skimmer make sure pump is on and water is circulating so that material is drawn into recirculation system. Do not allow buildup of dry material in skimmer as gases generated may cause an explosion.
