Then offer for recycling or reconditioning, or puncture and
dispose of in a sanitary landfill, or incineration, or, if allowed
by state and local authorities, by burning. If burned, ste. out
of smoke.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner
inconsistent with its labeling.

**Avocados, Bananas, Citrus Fruit, Melons, Papayas,
Pears and Tomatoes**

Use in a Catalytic Generator the first 24 hours of ripening
period. One quart used as directed in 4,000 to 10,000 cubic
feet ripening room produces ethylene concentrations
varying from 4 to 1,200 P.P.M. over a period of 16 hours.
One (1) pint used as directed in 1,000 to 6,000 cubic feet
ripening room produces ethylene concentrations varying
from 5 to 500 P.P.M. over a period of 8 hours.

TOBACCO (FLUE-CURED)

Use in a Catalytic Generator immediately after filling barn.
Two (2) quarts used as directed in 1,500 to 2,500 cubic feet
curing barn produces ethylene concentrations varying from
15 to 300 P.P.M. over a period of 12 hours.

Use additional 2 quarts of Ethy Gen® or Ripe-Rite as required.

USE PRECAUTIONS

**Anyone using this product in any other type barn or
room size should contact us prior to use.**

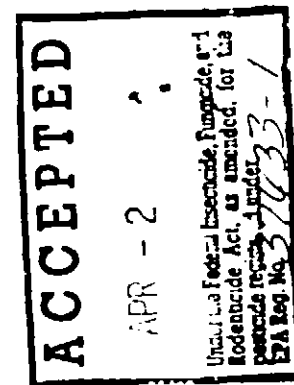

The ripening chamber must be sealed to the manufacturer's
instructions and the room must be properly ventilated to
prevent fire or explosion.

WARRANTY

Sever's liability for breach of warranty, express or implied,
incorporated with the sale or lease of this product, shall be
limited to repairs or replacement at sever's expense of the
defective product, and in no case shall be liable for
incidental or consequential damages.

IMPORTANT NOTICE

Do not use other products with Ethy Gen® or Ripe-Rite
unless approved by the manufacturer. Do not use in a
closed room or confined space.
