

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

37549-3

Date of Issuance:

6/1/20

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

“Liqui-Loc Plus Treatment”

Name and Address of Registrant (include ZIP Code):

Abigail T.D. Wacek
Senior Regulatory Consultant
Medline Industries, Inc.
Three Lakes Drive
Northfield, IL 60093

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Demson Fuller, Product Manager 32
Regulatory Management Branch I
Antimicrobials Division (7510P)

Date:

6/1/20

2. You are required to comply with the data requirements described in the DCI identified below:

a. Chlorinated Isocyanurate GDCI-081404-1795

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36):
<http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

4. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 37549-3."

5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 05/18/2020

If you have any questions, please contact Michael Varco by phone at 703-347-0403, or via email at Varco.Michael@epa.gov.

Sincerely,

Demson Fuller, Product Manager 32

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Causes moderate eye irritation. Harmful if absorbed through the skin, swallowed, or inhaled. Avoid contact with eyes, skin, or clothing. Avoid breathing dust. Wear long-sleeve shirt and long pants, socks, shoes, waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS

This product is an oxidizer. Do not use with or store near any oxidizing or reducing agents.

ENVIRONMENTAL HAZARDS

[For containers ≤ 5 gallons:]

This product is toxic to fish, aquatic invertebrates, oysters, and shrimp.

[For containers > 5 gallons:]

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Not harmful to septic tanks. Contains no phosphorus.

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage or disposal or cleaning of equipment.
PESTICIDE STORAGE: Keep in a cool, dry place. Keep container tightly closed. Maintaining a spill kit and fire extinguisher on hand and having emergency phone numbers posted will allow you to prepare for emergencies.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide is a violation of Federal law. If these wastes cannot be disposed of by use according to label instruction, contact your state pesticide or environmental control agency, or hazardous waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

[(Plastic Bottle).] **Nonrefillable container. Do not reuse or refill this container.** Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows. Empty the remaining contents into suction canister. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into suction canister or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

[(Water Soluble Packet).] **Nonrefillable container. Do not reuse or refill this container.** Offer for recycling, if available, or dispose of the empty outer plastic or foil pouch in the trash as long as the water soluble packet is unbroken.

{Administrative Note: [Brackets throughout label indicate optional or instructional language]}

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

- Liquid Medical Waste
- Encapsulation and Treatment
- For Use Only in Health Care and Veterinary Facilities
- **This product treats [500] [1000] [1200] [1500] [2000] [3000] cc of fluid (see table).**
- This product is intended for use with suction canisters.
- **Always wear hand and eye protection when handling infectious waste.**

For use with bottle

- 1) Shake product bottle well to thoroughly mix product powder.
- 2) Shut down suction canister system per suction canister system directions.
- 3) Remove top of accessory port on the suction canister lid.
- 4) Remove top from product bottle.
- 5) Pour the entire contents of product bottle into suction canister.
- 6) Return cap to open accessory port on the suction canister lid.
- 7) Allow sufficient time for fluid to solidify into a semi-solid gel.
- 8) Dispose of encapsulated material according to institutional procedures and Federal, State, and Local regulations.

For use with water soluble pack

- 1) Prior to beginning procedure, drop water soluble pack into suction canister.
- 2) As fluid is introduced into suction canister, product powder is released.
- 3) Allow sufficient time for fluid to solidify into a semi-solid gel.
- 4) Dispose of encapsulated material according to institutional procedures and Federal, State, and Local regulations.
