FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or if these are not available, drink large quantities of water. Do NOT give vinegar or other acids. Do NOT induce vomiting. Get prompt medical attention.

See additional precautions on side panel.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT
IN A MANNER INCONSISTENT WITH ITS LABELING.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

1. Before using, read and understand the entire label. 2. Use only for swimming pool chlorination. 3. Do not use in hot tubs, whirlpools, or other small pools. 4. Do not use in swimming pools with a capacity of less than 10,000 gallons. 5. Do not use in swimming pools with a pH level above 7.5. 6. Do not use in swimming pools with a total alkalinity above 120 ppm. 7. Do not use in swimming pools with a calcium hardness above 400 ppm. 8. Do not use in swimming pools with a metal content above 0.5 ppm. 9. Do not use in swimming pools with a total dissolved solids (TDS) above 1,000 ppm. 10. Do not use in swimming pools with a water temperature above 85°F. 11. Do not use in swimming pools with a water level below the normal level. 12. Do not use in swimming pools with a water level above the normal level. 13. Do not use in swimming pools with a water level below the normal level. 14. Do not use in swimming pools with a water level above the normal level. 15. Do not use in swimming pools with a water level below the normal level. 16. Do not use in swimming pools with a water level above the normal level. 17. Do not use in swimming pools with a water level below the normal level. 18. Do not use in swimming pools with a water level above the normal level. 19. Do not use in swimming pools with a water level below the normal level. 20. Do not use in swimming pools with a water level above the normal level.

**DIRECTIONS FOR DISINFECTION OF POTABLE WATER
FOR HOME WELL WATER SYSTEMS**

1. Before using, read and understand the entire label. 2. Use only for disinfection of potable water. 3. Do not use for disinfection of swimming pools. 4. Do not use for disinfection of hot tubs, whirlpools, or other small pools. 5. Do not use for disinfection of swimming pools with a capacity of less than 10,000 gallons. 6. Do not use for disinfection of swimming pools with a pH level above 7.5. 7. Do not use for disinfection of swimming pools with a total alkalinity above 120 ppm. 8. Do not use for disinfection of swimming pools with a calcium hardness above 400 ppm. 9. Do not use for disinfection of swimming pools with a metal content above 0.5 ppm. 10. Do not use for disinfection of swimming pools with a total dissolved solids (TDS) above 1,000 ppm. 11. Do not use for disinfection of swimming pools with a water temperature above 85°F. 12. Do not use for disinfection of swimming pools with a water level below the normal level. 13. Do not use for disinfection of swimming pools with a water level above the normal level. 14. Do not use for disinfection of swimming pools with a water level below the normal level. 15. Do not use for disinfection of swimming pools with a water level above the normal level. 16. Do not use for disinfection of swimming pools with a water level below the normal level. 17. Do not use for disinfection of swimming pools with a water level above the normal level. 18. Do not use for disinfection of swimming pools with a water level below the normal level. 19. Do not use for disinfection of swimming pools with a water level above the normal level. 20. Do not use for disinfection of swimming pools with a water level below the normal level.

**DIRECTIONS FOR SANITIZING FOOD PROCESSING
OR DAIRY EQUIPMENT**

1. Before using, read and understand the entire label. 2. Use only for sanitizing food processing or dairy equipment. 3. Do not use for sanitizing swimming pools. 4. Do not use for sanitizing hot tubs, whirlpools, or other small pools. 5. Do not use for sanitizing swimming pools with a capacity of less than 10,000 gallons. 6. Do not use for sanitizing swimming pools with a pH level above 7.5. 7. Do not use for sanitizing swimming pools with a total alkalinity above 120 ppm. 8. Do not use for sanitizing swimming pools with a calcium hardness above 400 ppm. 9. Do not use for sanitizing swimming pools with a metal content above 0.5 ppm. 10. Do not use for sanitizing swimming pools with a total dissolved solids (TDS) above 1,000 ppm. 11. Do not use for sanitizing swimming pools with a water temperature above 85°F. 12. Do not use for sanitizing swimming pools with a water level below the normal level. 13. Do not use for sanitizing swimming pools with a water level above the normal level. 14. Do not use for sanitizing swimming pools with a water level below the normal level. 15. Do not use for sanitizing swimming pools with a water level above the normal level. 16. Do not use for sanitizing swimming pools with a water level below the normal level. 17. Do not use for sanitizing swimming pools with a water level above the normal level. 18. Do not use for sanitizing swimming pools with a water level below the normal level. 19. Do not use for sanitizing swimming pools with a water level above the normal level. 20. Do not use for sanitizing swimming pools with a water level below the normal level.

NOTE: This product is a strong oxidizing agent. It will react with certain materials, such as aluminum, copper, and iron. It will also react with certain types of plastic. Therefore, it should be used with caution. It should be stored in a cool, dry place, away from heat and light. It should be kept out of the reach of children. It should be disposed of properly. Do not pour it down the drain. Do not throw it away in the trash. Do not use it for any purpose other than that for which it is intended.
