

## DESCRIPTION

**GRE SOLV GERM** — A colorless, odorless, liquid cleaning concentrate. for use as sanitizer and cleaner in food processing establishments. Chemically changes grease to a water soluble emulsion.

## DIRECTIONS • APPLICATIONS

To clean and sanitize coolers, cutting blocks, packaging tables and equipment in food processing and meat and poultry areas where thin food oil films or light food soils are present: wash with a solution of 2 ounce per gallon of water. Allow to work for 10 minutes and rinse thoroughly with water of drinking quality.

To clean and disinfect coolers, cutting blocks, packing tables and porous food contact surfaces where thin food oil films or light food soils are present: First, wash off with water all gross filth and heavy soil deposits from the surface and then wash with a solution of 2 ounces per gallon of water wiping, mopping, or scrubbing manually with the solution. Allow solution to work 10 minutes and rinse thoroughly with water of drinking quality. For pressure washing, follow above procedure of removing gross filth and heavy soil deposits with water first and then apply solution at 2 ounces per gallon of water allowing solution to work 10 minutes and then rinsing thoroughly with water of drinking quality.
