ident to 1.6 (Butylcarbityl) (6-Propylpiperonyl) ether and .4% of other compounds.

DESCRIPTIONS

This product is designed for control of common insects usually found in and around peanut shells, elevators and where shelled peanuts are stored. Master Brand Mill Spray should be used for the control of the exposed stages of the following insects: Meal Moth, Confused Flour Beetle, Lesser Grain Borers, Grain Weevils, Flies, Roaches and certain other insects.

Close all doors and windows and the space being treated with a cloud of fine mist, spraying freely toward ceiling in all directions. Walls, bins and storage areas should be thoroughly cleaned and sprayed with a direct heavy mist. Observe sanitation measures that reduce insect breeding.

WARNING

Do not pour or spray towards or near an open flame. This product may be harmful if swallowed. Do not use on humans or animals, domestic or otherwise. Do not spray directly on shelled peanuts.

NOTICE

Stevens Industries, Inc. warrants (its liability under any warranty or representation being limited to replacement of the product named on this label) that said product as sold by it consists of the ingredients specified, but makes no warranty or representation of any kind expressed or implied, including any warranty or representation regarding the effect or result of this product's use whether or not the product is used in accordance with directions, and accepts no responsibility whatsoever for injury to persons, loss or damage to property resulting from such use.
