TEAR AT NOTCH DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Fill tank with water before adding this product and allow to stand five minutes before using.

DIRECTIONS LAST TANK ONLY:

1. Scraps and dress utensils and glasses whenever possible.
2. Wash with a detergent and rinse with clear water.
3. Sanitize in a solution of 1 ounce SANITIZER to 10 gallons water (provides 100 ppm available chlorine), immerse all utensils for at least two minutes or for contact time specified by governing authority code.
4. Place sanitized utensils on a rack or dishtowel to air dry only. (Do not touch.)

STORAGE AND DISPOSAL

Store in a cool, dry, well ventilated area. Vapors resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PHYSICAL AND CHEMICAL HAZARDS

Strong Oxidizing Agent. Mix with water. Use clean dry utensils. Do not mix this product with any other chemical or grease film. Such use may cause a violent reaction leading to fire or explosion. Combustion with cellulose, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of irritating gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.
Do not contaminate water, food, or feed by storage or disposal.
