MICROBIOCIDAL SERIES 304

ACTIVE INGREDIENT

Poly [oxyethylene (dimethyliminio) ethylene-(dimethyliminio) ethylene dichloride] 30.0 %

INERT INGREDIENT 70.0 %

This product contains 2.67 lb. of active ingredient per gallon and weighs 8.90 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

If Swallowed - Rinse mouth with copious amounts of water, then drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Get Medical attention.

If In Eyes Flush with plenty of water for 15 minutes. Get Medical attention.

If On Skin Wash with plenty of soap and water. Get Medical attention if irritation persists.

DIRECTIONS FOR USE

PM 32 REG# 37785-10 4

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

MICROBIOCIDAL SERIES 304 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits.

An initial slug addition of 1.90 to 4.75 fluid ounces of MICROBIOCIDAL SERIES 304 per 100 gallons of water to provide a concentration of 16 to 40 parts per million of MICROBIOCIDAL SERIES 304, based on the total weight of water in the system is recommended. Repeat initial dosage until control is evident.

Subsequent slug additions of 0.47 to 4.75 fluid ounces of MICROBIOCIDAL SERIES 304 per 1000 gallons of water (4 to 40 parts per million of MICROBIOCIDAL SERIES 304) should be employed every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

STORAGE AND DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse (or equivalent) and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Rinse that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

NOT RECOMMENDED
