NOT FOR USE AFTER:

DIRECTIONS GENERAL CL

DIRECTIONS FOR SWIMMING POOLS: For a new pool or for spring cleaning (15 gal. conc.) of sodium hypochlorite solution of Federal law. Add manually or by a recirculation system with the following directions:

FOR POOL MAINTENANCE:
A) Adjust pool water pH to 7.4-7.6.
B) Add manually or by a recirculation system at a rate to maintain 0.8 to 1.0 ppm. One half pint solution for each 6000 gal. available chlorine by weight. Maintain 0.8 to 1.0 ppm temperature and of number. Maintain the pH and chlorine.

NOTE: This product degrades. Increase dosage as necessary. Available chlorine.

STORAGE AND DISPOSAL: Store in original container. Do not store in direct sunlight. In case of spill, clean up immediately. Do not return to manufacturer or distributor. Do not bury in an approved land fill. Do not contaminate water. Do not contaminate cleaning of equipment.

ACTIVE INGREDIENT: SODIUM HYPOCHLORITE 8%
INERT INGREDIENTS 92%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do not give vinegar or other acids. Do not induce vomiting. Get prompt medical attention.

STATEMENTS TO DOMESTIC ANIMALS

This pesticide is toxic to fish, keep out of lakes, streams or ponds. Treated effluent cannot be discharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance, contact the regional office of the Environmental Protection Agency.

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals will release hazardous gases irritating to eyes, lungs and mucous membranes.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

DIRECTIONS FOR SWIMMING POOL CHLORINATION
For a new pool or for spring start-up, superchlorinate with one (1) pint (16 fl. ozs.) of sodium hypochlorite solution for each 2500 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.
FOR POOL MAINTENANCE:
A) Adjust pool water pH to 7.6 - 7.2 range and maintain.
B) Add manually or by a feeder device, sodium hypochlorite solution at a rate to maintain an available chlorine residual of 0.5 to 1.0 ppm. One half pint (8 fl. ozs.) of sodium hypochlorite solution for each 6000 gallons of water will provide 1.0 ppm available chlorine by weight. Frequency of additions to maintain 0.5 to 1.0 ppm available chlorine will depend on temperature and number swimmers. Use test kit to make certain the pH and chlorine residual are in the proper range.
NOTE: This product degrades with age. Use a chlorine test kit and increase dosage as necessary, to obtain the required level of available chlorine.
STORAGE AND DISPOSAL: Store in a cool, dry area away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved land fill. Product or residue that cannot be used, should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

ACTIVE INGREDIENT:
SODIUM HYPOCHLORITE 5%
INERT INGREDIENTS: 95%
**KEEP OUT OF REACH OF CHILDREN.
DANGER.**
FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention.
