DETERGENT/DISINFECTANT

DIRECTIONS FOR USE
General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This detergent/disinfectant has been designed specifically for hospitals, offices, motels, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance.

DISINFECTION To disinfect hard non-porous surfaces (such as walls, floors, table tops) apply solution with mop, cloth, sponge or mechanical spray. As to wet surfaces thoroughly. Allow to remain wet for 10 minutes and then dry.

DILUTION RATES General disinfection - add 4-5 ounces this product per gallon of water. For heavy duty disinfection - add 8 ounces this product per gallon of water.

To disinfect toilet bowls, toilet seats, add 4-5 ounces this detergent/disinfectant directly to the toilet water. Swab the bowl completely using a brush or toilet mop making sure to get under the rim. Let stand for 10 minutes and flush.

For heavily soiled areas, a pre-cleaning step is required and is recommended. Prepare a fresh solution for each use.

MILDEWSTAT To control mildew and mold on hard non-porous surfaces (such as floors, walls, table tops), clean surfaces then add 4-5 ounces this product per gallon of water. Apply with a cloth, mop or sponge to surfaces to be treated making sure to wet thoroughly. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

PRECAUTIONARY STATEMENTS
Hazard to Human and Domestic Animals

WARNING

Keep Out of Reach of Children. Causes eye and skin irritation. Do not get in eyes, skin or on clothing. Harmful if swallowed.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Cleaner Disinfectant
Detergent Fungicide (Against
Oxidation Pathogenic Fungi)

Mildewstat (to control mildew and mold)

Orlando, Florida 32803

This product is a heavy duty cleanser, disinfectant and sanitizer designed for general household use, schools, motels, offices, kitchens, food processing plants and other industrial and hospital applications where heavy duty cleaning is of prime importance. When used as directed, this product is formulated to disinfect non-porous hard surfaces (such as walls, floors, table tops, bowls, tables, chairs and telephones). For larger areas such as restaurant, hotel, and restroom, the product is designed to provide both heavy duty cleaning and disinfecting. The product is designed to help control the hazard of cross contamination in public eating facilities, cleaning is necessary.

When used as directed, this product will remove most heavy soil dirt and grime from hard surfaces.

In addition to its cleaning capabilities, this product is formulated to act as a mildewstat on surfaces such as walls, storage areas, empty tubs, etc. to help control mildew and mold growth in other areas which do not require heavy cleaning.

DISINFECTION As directed, per gallon dilution, this product is effective against the following organisms: Salmonella, Shigella, Staphylococcus aureus, and E. coli.

At this concentration, this product is effective against the Pathogenic fungi, Tricophyton mentagrophytes.

At a concentration per gallon dilution, this product is an effective hospital disinfectant and demonstrates bactericidal activity against Pseudomonas aeruginosa.

Efficacy tests have demonstrated that this product is an effective bactericide and fungicide, in the presence of organic soil (5% blood serum).

Mold and Mildewstat - This product prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces at 2 ounces per gallon dilution.

STORAGE AND DISPOSAL

PROHIBITIONS Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL Pesticide spray mixture or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL - Recycle container and offer for reconditioning, or triple rinse for equivalent and offer for recycling, reconditioning or dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

GENERAL - For more information on proper use, see the label and other available procedures such as those published by the EPA.
