

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent cannot be discharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance, contact the regional office of the Environmental Protection Agency.

**PHYSICAL AND CHEMICAL HAZARDS:  
STRONG OXIDIZING AGENT**

Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals will release hazardous gases irritating to eyes, lungs and mucous membranes.

SANITIZER**

**KEEP OUT OF REACH OF CHILDREN!!  
DANGER!!**

Active Ingredient: Sodium Hypochlorite	12.5%
Inert Ingredients:	87.5%

**FIRST AID**

If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do not give vinegar or other acids. Do not induce vomiting. Get prompt medical attention.

See additional precautions on side panel.

**DIRECTIONS FOR USE**

**GENERAL CLASSIFICATION**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

3½ ounces of Pure-Chlor Sanitizer per 10,000 gallons of pool water will provide approximately 1.0 ppm available chlorine. In unstabilized pools, maintain the chlorine residual between 0.6-3.0 ppm. In stabilized pools, the residual must be maintained in the 1.5-3.0 ppm range. For superchlorination, add approximately 3 quarts Pure-Chlor per 10,000 gallons pool water. Do not use pool until the chlorine residual is less than 3.0 ppm. For best results, add Pure-Chlor at night while running filter. Check the residual in the morning with a test kit, and repeat dosage, if necessary, to obtain desired residual. Maintain pH between 7.2-7.6. Always use a reliable test kit with fresh test solutions.

**NOTE**

This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

**STORAGE AND DISPOSAL**

Store in a cool, dry area away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product or rinsate that cannot be used, should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
