Tracy, CA. 95376

Attention: George G. Verbruyck

Subject: Chlorine Gas
EPA Registration No. 37982-2
Labels for repackaging use, 8-24-83

We have reviewed your label against current requirements; it is acceptable subject to the following conditions:

1. The word POISON must appear in red on an appropriately contrasting background. Traditionally, however, manufacturers satisfy this requirement by printing POISON, DANGER, and the SKULL AND CROSSBONES in red.

2. Insert the word "DANGER" immediately preceding the precautionary statements for Hazards to Humans and Domestic Animals. Refer to the enclosed edited copy of your label.

3. This action will be considered complete and in compliance with PR Notice 82-2 of June 18, 1982 when we receive five copies of the revised finished printed label. You should assure yourself that the label complies with the general labeling requirements of Section 162.10 of Title 40 of the U. S. Code of Federal regulations. Failure to comply with these requirements may result in rejection of your label.

A stamped copy of the draft label is enclosed for your records. Your release of the product for shipment constitutes acceptance of these conditions.

Your 8-24-83 letter concerning repackagers has been included as a part of the record for this product.

The name for this product is "Chlorine Gas". If you wish to change the name please submit a request to change the name from "Chlorine Gas" to "Purechlor Chlorine Liquified Gas Under Pressure".

This is an administrative amendment for which no consideration of data is necessary, in accordance with Section 162.9-1(b).

Sincerely,

[Handwritten Signature]

A. E. Castillo

PURECHLOR CHLORINE LIQUIFIED GAS UNDER PRESSURE

NONFLAMMABLE

For use as a disinfectant and/or algacide by experienced personnel only in municipal water supplies, sewage and waste management plants, and in commercial and industrial swimming pools. It may be used as a slimicide in water cooling systems and in paper mills. It may also be repackaged into portable cylinders and used as an ingredient or intermediate in the manufacture of pesticide products.

NOTE: Repackagers and pesticide manufacturers using this product must obtain their own registration and establishment number from the United States Environmental Protection Agency.

Active ingredient: Chlorine.....99.5%
Inert Ingredients..... 0.5%

KEEP OUT OF REACH OF CHILDREN

DANGER (SKULL AND CROSSBONES) POISON

} in red

FIRST AID: In case of inhalation exposure, remove patient to fresh air. It may be necessary to remove clothing. Keep warm by covering with a blanket and keep quiet. Call a Physician. If breathing has ceased, administer artificial respiration.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger:

Corrosive to eyes, skin, and mucous membranes in the presence of moisture. May be fatal if inhaled. Do not breath air containing this gas. Do not get in eyes, on skin, or on clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters, unless in accordance with a NPDES permit. For guidance contact the regional office of the EPA, the state authority authorized to issue NPDES permits, or All Pure Chemical Company.

CHEMICAL-PHYSICAL HAZARDS

Chlorine is a non-flammable gas which is liquified and under pressure. Do not drop container. Keep away from intense heat or open sunlight. Chlorine is corrosive to most metals in the presence of moisture

DIRECTIONS FOR USE: GENERAL CLASSIFICATION. It is a violation of federal law to use this pesticide product in a manner inconsistent with its labeling. Before handling or moving, have available gas masks approved by the U.S. Bureau of Mines or the National Institute for Occupational Safety and Health. Handle and use only in accordance with practices recommended in the Chlorine Manual published by the Chlorine Institute, Inc.; New York City, New York or in the pamphlet Using All Pure Chlorine Gas, published by All Pure Chemical Company. Use in well ventilated areas.

STORAGE AND DISPOSAL: Keep tanks and cylinders away from heat. Do not store in direct sunlight. Do not drop containers. All containers must have a weather-resistant label attached near the outlet valve and must not be accessible to the general public. Empty containers should be properly identified with return tags and returned to the packager according to methods described in the Chlorine Manual or in Using All Pure Chlorine Gas.
