

### Hazards to humans and domestic animals

**WARNING:** May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash hands thoroughly after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

This disinfectant<sup>1</sup> is toxic to fish. Keep out of lakes, streams, ponds, and public waters unless a discharge permit is obtained. For guidance contact the regional office of the U.S. Environmental Protection Agency or All Pure Chemical Co.

**STRONG OXIDIZING AGENT!**

Mix only with water according to label directions. Mixing this product with gross filth, such as feces, urine, etc. or with ammonia, acids, detergents, or other chemicals will release hazardous gases irritating to eyes, lungs, and mucous membranes.

**STOP!** Before opening and using this product, read and understand the entire label.

Purechlor II is packaged with a child-resistant closure. See directions on closure for removal. Replace closure immediately after use. Never leave a filled or partially filled bottle un capped. Be sure closure is screwed all the way down on the neck of the bottle.

Purechlor II is packaged with a child-resistant closure. See directions on closure.

Active ingredient: Sodium hy-	
chlorite.....	10.0%
Inert ingredients.....	90.0%
Total.....	100.0%

**DEBATE**

First aid: If swallowed, drink large quantities of milk or gelatin solution, or if these are not available, drink large quantities of water. Do not give vinegar or acids. Do not induce vomiting. Get prompt medical attention. If on skin, wash with plenty of water. If in eyes, wash with water for at least 15 minutes. Get medical attention. See additional precautions on side panel.

FPA Reg. No. 37982-  
FPA Est. No. 37982-CA-1

Manufactured and packaged by All Pure  
Chemical Co.; Tracy, California 95376

Net contents: 1 gallon

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

10% ounces of Purechlor II will provide approximately 1.0 ppm available chlorine in 10,000 gallons of pool water. In un-stabilized pools, maintain chlorine residual between 0.6-3.0 ppm. In stabilized pools maintain residual between 1.5-3.0 ppm. Use a reliable test kit with fresh solutions for determining available chlorine and pH. Maintain pH between 7.2-7.6.

For superchlorination, add 1 gallon Pure-chlor II per 10,000 gallons of pool water. Do not use pool until residual is below 3.0 ppm.

**Storage and Disposal:** Store in a cool, dry area, away from direct sunlight. In case of spill, flood with large quantities of water. If possible, restrict spill to small area. Rinse empty container thoroughly. For returnable containers, rescue with closure and return to manufacturer. Non-returnable containers should be placed in trash for collection, or buried in a safe place. Product or rinsate which cannot be used should be diluted with water and placed into a sanitary sewer. Do not contaminate food or feed by storage or disposal or cleaning of equipment.
