DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Pool Start Up/Superchlorination: Add 1 gallon of Purechlor Sanitizer per 10,000 gallons of pool water (10 ppm available chlorine). Maintenance dosage is 14 ounces per 10,000 gallons daily or as necessary to maintain available chlorine in 1.0-3.0 ppm range. For spas add 7 ounces per 1,000 gallons (5ppm available chlorine) for start-up, superchlorination, and maintenance. Maintain pH between 7.2 and 7.6. See Purechlor Sanitizer II pamphlet for further information, available at your dealer/distributor.

Note: This product loses strength with age. Use a reliable test kit and adjust dosages as necessary to obtain required level of available chlorine.

DOT Information: 10.0% hypochlorite solution, corrosive material, UN 1791, DOT-E-6614

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Keep out of lakes, streams, ponds, and public water unless in accordance with a NPDES permit. For guidance contact EPA regional office.

PHYSICAL AND CHEMICAL HAZARDS:

Strong oxidizing agent. Mix only with water. Mixing with other chemicals or organic matter will release chlorine gas, irritating to eyes, lungs, and mucous membranes.

STORAGE, SPILLS, AND CONTAINER RETURN:

Store in a cool, dry place, away from direct sunlight. In case of spill, flood area with water. Return bottle to dealer with closure tightly fastened.
