

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with a SDPES Permit. For guidance, contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS
STRONG OXIDIZING AGENTS: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseat container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

ALL PURE CHEMICAL COMPANY
TRACY, CALIFORNIA 95376
EPA REG. NO. 37982-0000
EPA EST. NO. 37982-CA-1

ALL PURE SHOCKING GRANULES

For start up and special algae problems

Active Ingredient:
Calcium Hypochlorite....65.0%
Inert Ingredients.....35.0%
Available Chlorine.....65%

KEEP OUT OF REACH OF CHILDREN
DANGER

Practical treatment (first aid):
If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention. See additional precautions on side panel.

Net Weight: 5 lb. net

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is recommended for establishing a chlorine residual in freshly filled pools, pools which have been closed for the season, and for periodic superchlorination or "shock-treatment" during periods when the pool is in regular use, after wind and rainstorms, or whenever a pool loses its sparkle and clarity. **First**, adjust pH between 7.2-7.6, if necessary. Acids such as muriatic, sulfuric and sodium bisulfate lower pH. Alkaline products such as soda ash and sodium sesquicarbonate raise pH. Follow label directions on these products for pH adjustment. **Second**, add 2 ounces of this product (approximately 1/2 cup) per 1,000 gallons pool water while filter and pump are running. Circulate water 4-6 hours after addition. **Third**, check available chlorine after 24 hours with a reliable test kit. Be sure solutions are fresh for accurate test results. If you do not have a residual above 1.0 ppm, repeat Steps 1 and 2. If residual is between 1.0-3.0 ppm, pool is ready for swimmers, and regular chlorination should be started or continued with liquid, granular or tableted chlorinating chemicals. If chlorine residual is above 3.0 ppm, do not use pool or add additional chlorinating chemical until residual is in 1.0 ppm range.

After treatment it may be necessary to brush bottom and sides, and vacuum algae and other debris.

If pool has black algae spots, brush spots with a wire algae brush during treatment. Brush again after 24 hours. Black algae is often difficult to remove. If spots persist after treatment, repeat process. If spots still persist, use a dry algicide, following special directions on that label.

STORAGE AND DISPOSAL:

Keep product in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JUN 23 1984

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
or the Federal Food, Drug, and
Cosmetic Act, EPA Reg. No.

37982-20

ADDITIONAL LABELING FOR 1 POUND POUCH

Delete paragraph as follows: "Second,....addition."

Substitute, "Second, this product is contained in a child-resistant pouch. Cut off the top with scissors, and apply entire packet to pool while filter and pump are running. Do not store product in open pouch. 1 Packet will provide the following dosage:

<u>Chlorine residual</u>	<u>Gallons of pool water</u>
5.0 ppm	15,600
10.0	7,800
15.0	5,200

For larger pools, use two or more packets."

Under Storage and Disposal, delete: "Keep product in a tightly closed container when not in use."

Add: "Use entire contents of package. Do not store unused portions of this chemical in a opened package."
