ALL PURE CHLORINATING
Granules

PRECAUTIONAL STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, or ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS, STRONG OXIDIZING AGENT: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose of in an approved landfill area, or bury in a safe place.

active ingredient: sodium dichloro-
s-triazine trione 99.5%
inert ingredients 0.5%
available chlorine 62.0%

EPA REG. NO. 37982-
EPA EST. NO. 37982-CA-1

KEEP OUT OF REACH OF CHILDREN!

DANGER!

PRACTICAL TREATMENT (First Aid):
If swallowed, feed bread soaked in milk followed by olive or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

See additional precautions on side panels of this label.

USE DIRECTIONS

It is a violation of Federal law to use this germicide in a manner inconsistent with its labeling.

2½ ounces of this product per 10,000 gallons will provide 1.0 ppm available chlorine.

Daily maintenance. Add 2½ ounces of this product per 10,000 gallons every day when in use or during hot weather. Check available chlorine with a reliable test kit which has fresh solutions each morning. Adjust rate of application up or down to maintain available chlorine between 1.0-3.0 ppm. Maintain pH between 7.2-7.6. Usually, during cold weather when pool is not in use, 2½ ounces every few days will maintain an adequate residual.

Start Up. In freshly filled pools, add 1½ pounds of this product per 10,000 gallons to establish the initial chlorine residual. After 24 hours check residual. If there is no measurable residual repeat above process. If residual is between 1.0-3.0 ppm, you may use pool. Maintain chlorine residual per instructions above. If residual is above 3.0 ppm, check pool daily until residual is in 1.0-3.0 ppm range. Do not use pool when residual is above 3.0 ppm available chlorine.

Superchlorination. During swimming season, superchlorinate or "shock treat" your pool every seven to ten days or whenever water loses its sparkle, is cloudy, or chlorine odors are present. Add 1½ pound of this product per 10,000 gallons. Do not use pool until residual is in ideal range, e.g. 1.0-3.0 ppm available chlorine. Superchlorination is often necessary after contamination from urine, fertilizer, heavy rain and dust storms, etc. If cloudy conditions persists, check your filter for leakage.

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.
