Micro Aseptic Products  
c/o Kyle Sibinovic  
P.O. Box 2610  
W. Bethesda, Md 20817

Product Name: MANIKAID  
Registration Number 38526-2  
Application Date 12/22/89

The amendment referred to above, submitted in connection with registration under FIFRA, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
  - a. Delete all tuberculocidal and fungicidal claims. Note that there is no data on file to support these claims.
  - b. Change the statement "Its pleasant peppermint flavor and fragrance . . ." to read: "Its pleasant peppermint odor . . ."
  - c. Under the Directions for Use", item 3, revise "Between each student re-apply MANIKAID to surface and wipe dry . . ." to "Between each student re-apply MANIKAID to surface and allow to remain wet for a least 10 minutes and wipe dry . . ."
  - d. Place the signal word "Caution" below the statement "Keep Out of Reach of Children."
  - e. Change "Applications" to "Directions For Use".

f. In the use directions, include the following statement on the label.

"For one (1) gallon container size, apply the product as stated above, using a gauze pad and remove the product after 10 minutes using a clean gauze pad."

h. Please note the minimum type size requirement for all pesticide label is 6 points. You should check your ingredient statement to confirm that the type size is not less than 6 points. Please refer to the enclosure, "The Label" for type size requirements for the signal word and the "Keep Out of Reach of Children" statement.

i. On the front panel, an asterisk (\*) must be placed after the word virucidal.

j. Correct the spelling of "Viricidal".

2. We have adjusted our records to reflect the new product name "MANIKAID".

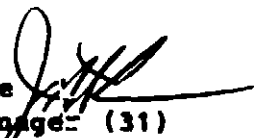

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

If you have any questions concerning this letter, please contact Martha DeLaney at (703) 557-6982.

Sincerely yours,

John H. Lee

PROFESSIONAL SIZE  
NET CONTENTS 6 OZ. (180 ml)  
EPA Reg. No. 38526-2  
EPA Est. No. 36213-MD-2

A DISINFECTANT PRODUCT FOR MANKIN USE.  
Meets EPA Requirements for use as a hospital disinfectant.

MANKAID™ is an effective agent used for the disinfection of the facial area, including the mouth and nose, of CPR training manikins between students. Manikaid tests show it to be effective against a broad range of bacteria, viruses, fungi and the herpes virus when used as directed. Its pleasant peppermint flavor and fragrance make it esthetically pleasant to use. Unlike bleach,

APPLICATIONS:

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling
1. Remove cap to expose pump sprayer.
  2. Prior to the beginning of each class, thoroughly spray the mouth and nose of the manikin. Allow to remain wet for at least 10 minutes. Wipe excessive Manikaid from surface after 10 minutes. Allow remainder to air dry.
  3. Between each student, re-apply MANKAID to surface and wipe dry using a clean gauze pad.
  4. Upon conclusion of the class, respray surface and allow to air dry.
  5. Between classes, the manikin should be thoroughly cleaned and disinfected.

Storage and Disposal  
Wrap and dispose of empty container in regular trash collection.
