DIRECTIONS FOR USE
GENERAL CLASSIFICATION

This solution is effective against most bacteria, yeasts and fungi. Use as directed.

FOR CLEANING:
Lightly soiled areas: Use 1/2 ounce of Swift 3-D per gallon of water. Scrub or brush with a solution containing 1/2 ounce of Swift 3-D per gallon of water.

Heavily soiled areas: Use 1 ounce of Swift 3-D per gallon of water with a solution containing 2-3 ounces of Swift 3-D per gallon of water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors, and other hard non-porous surfaces in homes, schools, restaurants, restrooms, health care facilities, use 2 ounces of Swift 3-D per gallon of water so as to maintain thoroughly wetted surfaces for 10 minutes. Use in the following directions for cleaning. Those surfaces which may later come in contact with water should be rinsed with clean water.

To disinfect hard non-porous surfaces in locker rooms, shower stalls, restrooms around pools, and other areas, use a solution containing 4 ounces of Swift 3-D per gallon of water so as to maintain thoroughly wetted surfaces for 10 minutes. Do not use on carpeting or other soft surfaces. Do not use on leather.

HOSPITAL DISINFECTION

To disinfect walls, floors, and other hard non-porous surfaces in hospitals and nursing homes, use 2 ounces of Swift 3-D per gallon of water so as to maintain thoroughly wetted surfaces for 10 minutes. Use in the following directions for cleaning. Those surfaces that are heavily soiled with blood, fecal matter, or other organic material should be pre-cleaned with a solution of Swift 3-D per gallon of water. Rinse with clean water before disinfecting. Do not use used solution. This product has not been tested for use on carpeting or other soft surfaces. Do not use on leather.

DEODORIZATION

To deodorize restrooms, locker rooms, and other areas, use 2 ounces of Swift 3-D per gallon of water. Use in the following directions for cleaning. Those surfaces that are heavily soiled with blood, fecal matter, or other organic material should be pre-cleaned with a solution of Swift 3-D per gallon of water. Rinse with clean water before disinfecting. Do not use used solution. This product has not been tested for use on carpeting or other soft surfaces. Do not use on leather.

FOR CLEANING, DISINFECTION, DEODORIZING EVACUATION DENTAL OFFICES.

To disinfect, clean and deodorize the evacuation system, mix 2 ounces of Swift 3-D per gallon of water. Flush one quart of mixed solution through each operatory evacuation system every other day at the end of the working day and allowed to remain in tubing and piping if has not been tested for effectiveness against Mycobacterium tuberculosis and must not be used if activity is indicated by the user.
