**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS (6 DOMESTIC ANIMALS)**

WARNING

Do not contaminate feed, food, food containers or cooking utensils.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed — Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Never induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately.
If Inhaled — Remove victim to fresh air. Apply respiration if indicated.
In on Skin — Wash thoroughly with soap and water.
In Eyes — Flush eyes for at least 15 minutes with water. Get medical attention immediately.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow children in treated areas until surfaces are dry.

STORAGE AND DISPOSAL

Storage — Do not use, pour, spill or store near heat or open flame. Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

Pesticide Disposal — Pesticide spray mixture of concentrate that cannot be used or chemically processed should be disposed of according to procedures approved by Federal, State or local disposal authorities.

Container Disposal — Do not reuse empty container. Triple rinse for empty container and dispose of in an approved landfill or in a safe place.

Consult Federal, State or local disposal authorities for approved alternative procedures.

NET CONTENTS

EAGLE DIAZINON 4S is a 4S DIAZINON per gallon. It is for use by pest control operators after dilution with water. The solvent used in this concentrate may stain certain materials, such as tiles and linoleum. When used in dark-colored deposits which harm children.
Note: EAGLE DIAZINON 4S is a flammable liquid (F+), and is a severe eye irritant (Xn).

TO CONTROL HOUSEHOLD PESTS

Use EAGLE DIAZINON 4S as a suitable basis for making a spray as indicated below.

SPRAY DILUTION

Gals of Concentrate	Amount of Water to Make 1 Gallon of Spray
1	1
2	2
3	3
10	10
25	25 fl. oz.

*2 tablespoons = 1 fl. oz.

Cockroaches (Waterbug) — Apply with a paint brush to cracks, crevices, and other hiding places. These insects hide in these areas.

For heavy cockroach infestation, a strength of 1% EAGLE DIAZINON is recommended.

Carpet Beetles — Apply a spot application along the edge of carpeting and under shelving and wherever they are found.

Spiders and Scorpions — Apply a spray around windows, doors, and other openings. Do not replace.

Pantry Pests — Apply a spot application along the edge of shelves and under shelving. Do not replace.

DIRECTIONS FOR USE, CONTINUED

EAGLE DIAZINON 4S is an oil solution containing 4 lbs. of DIAZINON per gallon. It is intended for use by pest control operators after dilution with insecticidal base oils for the control of those insects specified on this label.

Note: The solvent used in this formulation is a petroleum distillate which may stain certain plastic, rubber, and asphalt materials, such as tiles and floor coverings. Do not treat such materials. When used in drainings, care should be taken to avoid deposits which could be frequently contacted by children.

Note: EAGLE DIAZINON 4S is not recommended for use in conduits, motor housings, junction or switch boxes because of shock hazard.

TO CONTROL HOUSEHOLD INSECTS

Dilute EAGLE DIAZINON 4S with deodorized kerosene or other suitable base oil to make a 1/4% or 1% Diazinon spray and apply as indicated below. Repeat application as necessary.

SPRAY DILUTION CHART

Gals. of flushed spray	Amount of EAGLE DIAZINON 4S to use for	
	1/4% spray	1% spray
1	1 fl. oz.	2 fl. oz.
2	2 fl. oz.	4 fl. oz.
3	3 fl. oz.	6 fl. oz.
10	10 fl. oz.	20 fl. oz. (2 1/2 pts.)
25	25 fl. oz. (3 1/8 pts.)	50 fl. oz. (6 1/4 pts.)

*2 tablespoons = 1 fl. oz.

Cockroaches (Waterbug), Ants, and Silverfish — Make spot applications of 1/4% EAGLE DIAZINON as a coarse spray or apply with a paint brush to baseboards, areas around water pipes, cracks and crevices, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, and similar areas where these insects hide.

For heavy cockroach infestations, make the first application at a strength of 1% EAGLE DIAZINON, followed by monthly applications of 1/4% EAGLE DIAZINON.

Carpet Beetles — Apply a 1/4% EAGLE DIAZINON spray in spot applications along baseboards and edges of carpeting, under carpeting and rug, and furniture, in closets and on shelves, and wherever these insects are seen or suspected.

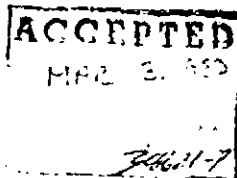

Spiders and Scorpions — Apply a 1/4% EAGLE DIAZINON spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may travel.

Pantry & Kitchen stored staples (Sawtoothed Grain Beetle, Flour Beetle, Rice Weevil, Cigarette Beetle, Drugstore Beetle, Indian Meal Moth) — Apply a 1/4% EAGLE DIAZINON spray to shelves and cupboards where food containers suspected of being in-

festes are stored. Remove all food and shelving paper before spraying. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This treatment is supplemental to good housekeeping, since it will have no effect on insects breeding within food packages. Infested food packages should be destroyed.

Brown Dog Ticks in Buildings — Make thorough application of a 1/4% EAGLE DIAZINON spray to infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor coverings. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.
