**17N**

Active Ingredient: 35  
Inert Ingredients: 65  
NET WEIGHT: 32.50  
GROSS WEIGHT: 100.0  
Net Content: 32.50 lbs per gallon and weighs 9.25 lbs/gal

**KEEP OUT OF REACH OF CHILDREN  
WARNING**

**PRECAUTIONARY STATEMENTS  
DANGERS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING:** Causes eye damage and irritation. Do not get in eyes, on skin, or on clothing. Wash clothes and take care to wear rubber gloves when handling. Harmful to fish and swimmers. Avoid contamination of food.

**FIRST AID:** If in eyes, flush immediately with plenty of water for at least 15 minutes. If swallowed, give patient doses of powdered charcoal immediately. If inhaled, swallow of raw egg white milk, give hot oil and water. For skin, wash with salt soap or mustard in warm water. Get a physician if needed.

**ENVIRONMENTAL PRECAUTIONS:** This pesticide is toxic to fish. Do not discharge into lakes, streams, or other surface waters unless in accordance with air NPDES permit. For more information, contact the Regional Office of the EPA.

**DIRECTIONS FOR USE  
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Chemtech 17N is used to control algae, bacteria, and fungi in commercial and industrial water cooling towers. Prior to use, towers must be cleaned to remove algal growth, mineral deposits, and other deposits. An initial slug addition of 3.3 to 5.6 lb per 1000 gallons of water is recommended. Repeat slug additions if algae is evident.

Subsequent slug additions of 1.1 to 6.6 lb per 1000 gallons of water should be employed every 7 to 14 days. The frequency of addition depends upon the nature and severity of the microbiological problem. Slug additions should be made to a sump of water cooling towers.

**STORAGE AND DISPOSAL**

**PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

**PESTICIDE DISPOSAL:** Pesticide, spray mixture, or residue that cannot be reused or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

**CONTAINER DISPOSAL:** Containers under 30-gallon capacity may be reused but should be triple rinsed and disposed of in an incinerator or landfill approved for pesticide containers or buried in a safe place. Containers over 30-gallon capacity should be resealed and offered for reconditioning, triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill, or buried in a safe place.

**GENERAL:** Consult Federal, State, or Local disposal authorities for alternative procedures.
