DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRESERVATION OF INDUSTRIAL AND HOUSEHOLD WATER-BASED PAINTS

GLYCOSERVE™ P aids in the control of bacterial and fungal spoilage of water-based paints while in storage in metal or plastic containers.

GLYCOSERVE™ P should be added to water based paint at the final stage of manufacture at a concentration of 0.2% to 1.0%, equivalent to 2000 to 10,000 ppm, based upon the total weight of the paint.

STORAGE AND DISPOSAL

Open dumping is prohibited. Do not reuse empty container.

Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Triple rinse the container or equivalent method before sending to drum conditioner, or destroy by perforation or crushing and burying in a safe place. Consult Federal, State or local authorities for approved alternative procedures.

DANGER

See First Aid Statement and
Additional Precautions on Side Panel

NET WT.

SIDE PANEL ENVIRO-TAB-W

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

Enviro-Tab-W is a slow dissolving ^{CHLORINATING} ~~chlorine~~ tablet for the treatment of sewage effluent.

The number of tablets to be used are determined by the average daily flow rate range and the amount of chlorine required. For example, to treat 20,000 gallons of wastewater 6 tablets (1.5 lbs.) will provide 6 ppm available chlorine.

Follow the instructions of the Manufacturer of the Sanitation System to determine the number of tablets required to process your wastewater.

The delivery rate of chlorine is determined by the flow of wastewater through the system and the amount of tablets to be used.

WARRANTIES DISCLAIMER

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use and buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty, including any other express or implied warranty of fitness or of merchantability, and no agent of seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

PETROKEM CORP., 59 SPRUCE STREET, PATERSON, N.J. 07509

SIDE PANEL CONTINUED

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT (FIRST AID)

IF CONTACT WITH EYES OCCURS, flush with cold water for at least 15 minutes. Get medical attention. IF CONTACT WITH SKIN, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. IF SWALLOWED, feed bread soaked in milk, followed by olive oil or cooking oil. DO NOT induce vomiting. Call a physician immediately.

ENVIRONMENTAL HAZARD:

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U.S. Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, chlorine gas (and possible fire and explosion). In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water, if necessary.

PRESERVATION OF INDUSTRIAL AND HOUSEHOLD WATER-BASED PAINTS

GLYCOSERVE™ P aids in the control of bacterial and fungal spoilage of water-based paints while in storage in metal or plastic containers.

GLYCOSERVE™ P should be added to water based paint at the final stage of manufacture at a concentration of 0.2% to 1.0%, equivalent to 2000 to 10,000 ppm, based upon the total weight of the paint.

STORAGE AND DISPOSAL

Open dumping is prohibited. Do not reuse empty container.

Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Triple rinse the container or equivalent method before sending to drum conditioner, or destroy by perforation or crushing and burying in a safe place. Consult Federal, State or local authorities for approved alternative procedures.
