

DIRECTIONS

The following general directions are supplied by us gratuitously and are believed to be reliable, but are in no way guaranteed.

Not For Use on Feed or Food Crops

WHEN TO APPLY: Applications can be made in all seasons. However, bait should not be applied in rainy periods, when rain is expected within 24 hours, or during periods of prolonged freezing weather

HOW MUCH TO USE: Use at the rate of 1 pound for a medium-sized nest or "town" (one having a central nest area containing about 150 mounds). Use proportionate amounts for smaller or larger towns ranging from 6 pounds on very large, old "towns" to 1/4 pound on those having only a few mounds. For single-mound nests use 1 ounce

HOW TO APPLY: Scatter the pellets evenly over the central nest area where most of the excavation mounds are concentrated, and for the medium to large nests include an area about 20 feet wide bordering the central nest area. Bait can be broadcast with a suitable mechanical spreader or by hand. Wear rubber gloves when handling this product. Repeat applications as necessary.

ACTIVE INGREDIENT	
Dodecachlorooctahydro-1,3,4-metheno-2H-cycloheptalene*	.450%
INERT INGREDIENTS	
*MIREX	99.550%
U.S. Pat. Reissue 24,750	
<i>Serving Agriculture from Coast to Coast</i>	
	GENERAL CHEMICAL DIVISION
	MORRISTOWN, N. J., U. S. A.

(Continued from Panel at left)

HOW LONG FOR CONTROL: First signs of control will be a great reduction in excavation and foraging activities. This occurs in about 5 to 14 days. These activities gradually stop completely and the nest is dead in 5 to 6 weeks.

OTHER ANTS: This product will also control HARVESTER ANTS and FIRE ANTS in the treated area.

NOTE: Do not use other insecticides on the area while the bait is being used; they may interfere with the effectiveness of the bait.

CAUTION

Keep out of reach of children

Harmful if swallowed.

Avoid skin contact.

Wash with soap and water after using and before eating or smoking.

Do not contaminate feed or foodstuffs.

Keep out of reach of children and domestic animals.

Wear rubber gloves when handling.

Keep Container Tightly Closed And Stored In a Cool Dry Place Away From Other Pesticides.

DO NOT REUSE THIS CONTAINER
