**ACTIVE INGREDIENT**  
Poly (oxyethylene (dimethyliminio) ethylene-  
(dimethyliminio) ethylene dichloride) . . . . . 40.0%

**INERT INGREDIENT** . . . . . 60.0%

This product contains 3.648 lb. of active ingredient per gallon and weighs 9.12 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

**FIRST AID:** If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

Pool Swim Algae Control NF Concentrate is used to control the growth of algae in swimming pools, exterior heated pools, whirlpools, and hot baths. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using Pool Swim Algae Control NF Concentrate.

For pools having just visible algae growth add an initial dose of 18 to 27 fluid ounces of Pool Swim Algae Control NF Concentrate per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 10 to 18 fluid ounces of Pool Swim Algae Control NF Concentrate per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 3.5 to 7 fluid ounces of Pool Swim Algae Control NF Concentrate per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.

Pool Swim Algae Control NF Concentrate is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. Pool Swim Algae Control NF Concentrate can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Pool Swim Algae Control NF Concentrate with concentrated dry or liquid chlorine products.

**STORAGE & DISPOSAL:** Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. The container must be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place. Rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
