Term of Issuance:
 Conditional

Name of Pesticide Product:
 Warrior Insecticide
 Cattle Ear Tag

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Y- Tex Corporation
 P.O. Box 1450
 1825 Big Horn Avenue
 Cody, Wyoming 82414-1450

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 39039-6

Signature of Approving Official:

Date:

EPA Form 8570-6

3. Agree to redo the primary dermal irritation and dermal sensitization study(s) should they be found unacceptable and/or make appropriate changes to precautionary text if necessary based upon the results of these studies.

4. Submit three (3) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

39039-6

Y-TEX® WARRIOR™ INSECTICIDE CATTLE EAR TAGS

- One tag per animal controls pyrethroid-resistant horn flies for 3 to 4 months and aids in control of face flies.
- One tag per animal controls biting and sucking lice during winter.
- No withdrawal time required.
- Two tags per animal control horn flies, lice, Gulf Coast and spinose ear ticks up to 5 months and aids in control of face flies, stable flies and house flies.
- Guaranteed against loss due to tag or button failure.*

Snap-Lok™ collar for guaranteed retention* (U.S. Patent No. 4,581,834)

Ribbed design for season-long durability

Long taper and rounded edges for durability

Large surface area for insecticide effectiveness

GUARANTEE

* This guarantee is a limited guarantee, limited to the replacement of tags only. If the tags failed after being properly applied, to remain in the animal's ear for a five (5) month period due to tag breakage or separation from button.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

Summer Season: Apply 1 tag per animal to control horn flies for 3-4 months, control lice and aid in control of face flies. Apply 2 tags per animal (1 in each ear) for optimum control of horn flies, lice, Gulf Coast ticks and spinose ear ticks for up to 5 months. Two tags per animal also provides substantial reductions of face flies and aids in control of stable flies and house flies. Apply when pests appear.

Winter Season: Apply 1 new tag per animal in late fall to early winter to control biting and sucking lice. Kills biting lice and most sucking lice within 2 weeks. Protects from lice reinfestation for 2-3 months.

Apply new tags in spring for fly and tick control. Replace as necessary. Apply as shown with the Y-TEX 2-piece tagging system. All animals in the herd should be tagged. Calves less than 3 months of age should not be tagged or ear damage may result. To minimize development of insecticide resistance, remove used tags at end of fly and lice seasons and follow Y-TEX's recommended tag rotation program.

STEP 1

Seat male button firmly on pin, press down and give a slight twist

STEP 2

Place female tag firmly under clip. Collar on tag must be pointing away from pin.

STEP 3

Position applicator over ear and squeeze the handles together

The ideal position for male stud is between the second and third radial cartilage as shown

STORAGE AND DISPOSAL

Store in a cool place in original container.

Opened bags containing ear tags should be resealed for storage.

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in cool place away from direct sunlight.

PESTICIDE DISPOSAL: Remove tags before slaughter.

Securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

**PRECAUTIONARY
STATEMENTS
HAZARDS TO HUMANS
WARNING**

Harmful if absorbed through the skin or if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling and before eating or smoking. Avoid contamination of feed or foodstuffs. If rubbed in eyes, flush with plenty of water. If swallowed or if eye irritation persists, call a physician. *Wear rubber or non-permeable protective gloves when applying tags.* Prolonged or frequently repeated skin contact may cause allergic reaction to some individuals. If sensitization reaction results, consult with a physician.

NOTE TO PHYSICIAN:
Diazinon and chlorpyrifos are organophosphate insecticides. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

NOTICE OF WARRANTY

Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of tags only.

**ENVIRONMENTAL
HAZARDS**

THIS PESTICIDE IS TOXIC TO FISH. Do not apply directly to water. Do not contaminate water by disposal of used tags. Use this product only as specified on the label.
