## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

WASHINGTON, D.C. 20460

OFFICE OF  
PREVENTION, PESTICIDES  
AND TOXIC SUBSTANCES

MAY 12 2006

Mr. Joe Kellerby  
Y-TEX Corporation  
P.O. Box 1450  
1825 Big Horn Avenue  
Cody, WY 82414-1450

Dear Mr. Kellerby:

Subject: Amendment - Revisions to comply with risk mitigation requirements  
stipulated in the Diazinon and Chlorpyrifos IREDs

Warrior Insecticide Cattle Ear Tag  
EPA Registration Number 39039-6  
Your submission dated February 6, 2006

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(7)(a), is acceptable and a stamped copy of the label is enclosed for your records. Please make the following revisions when preparing the actual finished labeling:

1. In the Hazards to Humans, after "Avoid contact with eyes, skin or clothing." add "Avoid breathing vapors."
2. In the NOTE under the heading Directions for Use, regarding "...chemical-resistant gloves made of rubber or any waterproof material (selection category A)", the Agency agrees that this could be stated as "...chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils)". In case end-users contact your marketing staff regarding specific glove material selection, the Agency recommends that you provide that staff with the chart downloaded from the EPA's web site located at [www.epa.gov/oppfead1/safety/workers/equip.htm](http://www.epa.gov/oppfead1/safety/workers/equip.htm) and tell them that the appropriate category for this product is selection category A.

This letter does not constitute reregistration of the subject product. Such a determination will await completion of the Agency's cumulative risk assessment for the group of organophosphate pesticides.

Please submit 4 copies of the finished label prior to release for shipment under the amended labeling.

Sincerely,

George LaRocca.  
Product Manager 13  
Insecticide Branch  
Registration Division (7505P)

ACCEPTED  
with COMMENTS  
In EPA Letter Dated:

MAY 12 2006

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under EPA Reg. No.  
39039-6

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS**  
**WARNING**

May be fatal if swallowed. Harmful if inhaled, or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Do not contaminate food or feed.

**NOTICE OF WARRANTY**

Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of tags only.

**ENVIRONMENTAL HAZARDS**

THIS PRODUCT IS HIGHLY TOXIC TO FISH, BIRDS, AND OTHER WILDLIFE. Do not apply directly to water. Do not contaminate water by disposal of used tags. Use this product only as specified on the label.

EPA EST. NO. 39039-WY-01  
EPA REG. NO. 39039-6

U.S. Pat. No. 5,472,955

**Y•TEX®**  
**WARRIOR™**  
**INSECTICIDE CATTLE EAR TAGS**

**FIRST AID**

This product contains diazinon and chlorpyrifos, organophosphate insecticides that inhibit cholinesterase.

If swallowed	<ul style="list-style-type: none"><li>• Call a poison control center or doctor immediately for treatment advice.</li><li>• Have person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
If on skin or clothing	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15 - 20 minutes.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
If in eyes	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
If inhaled	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>

**HOT LINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information.

**NOTE TO PHYSICIAN**

Diazinon and chlorpyrifos are organophosphate insecticides. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

# Y-TEX® WARRIOR™

INSECTICIDE CATTLE EAR TAGS

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reformulation or repackaging of this product is prohibited. This labeling must be in the possession of the user at the time of pesticide application.

NOTE: When applying tags, wear chemical-resistant gloves made of rubber or any waterproof material (selection category A).

**Summer Season:** Apply 1 tag per animal to control horn flies for 3-4 months, control lice and aid in control of face flies. Apply 2 tags per animal (1 in each ear) for optimum control of horn flies, lice, Gulf Coast ticks and spinose ear ticks for up to 5 months. Two tags per animal also provides substantial reductions of face flies and aids in control of stable flies and house flies. Apply when pests appear.

**Winter Season:** Apply 1 new tag per animal in late fall to early winter to control biting and sucking lice. Kills biting lice and most sucking lice within 2 weeks. Protects from lice reinfestation for 2-3 months.

Apply new tags in spring for fly and tick control. Replace as necessary. Apply as shown with the Y-TEX 2-piece tagging system. All animals in the herd should be tagged. Calves less than 3 months of age should not be tagged or ear damage may result. To minimize development of insecticide resistance, remove used tags at end of fly and lice seasons and follow Y-TEX's recommended tag rotation program.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

#### PESTICIDE STORAGE:

Store in a cool place in original container away from direct sunlight. Opened bags containing ear tags should be resealed for storage.

#### PESTICIDE DISPOSAL:

**Remove tags before slaughter.**  
Securely wrap used tags in a plastic bag and discard in trash.

#### CONTAINER DISPOSAL:

Do not reuse bag. Discard bag in trash.

- **One tag per animal controls pyrethroid-resistant horn flies for 3 to 4 months and aids in control of face flies.**
- **One tag per animal controls biting and sucking lice during winter.**
- **No withdrawal time required.**
- **Two tags per animal control horn flies, lice, Gulf Coast and spinose ear ticks up to 5 months and aid in control of face flies, stable flies and house flies.**
- **Guaranteed against loss due to tag or button failure.\***

Long taper and rounded edges for durability

Ribbed design for season-long durability

Large surface area for insecticide effectiveness

Snap-Lok™ collar for guaranteed retention\* (U.S. Patent No. 4,581,834)

#### GUARANTEE

\*This guarantee is a limited guarantee, limited to the replacement of tags only, if the tags failed after being properly applied, to remain in the animal's ear for a five (5) month period due to tag breakage or separation from button.

**Winter Season:** Apply 1 new tag per animal in late fall to early winter to control biting and sucking lice. Kills biting lice and most sucking lice within 2 weeks. Protects from lice reinfestation for 2-3 months.

Apply new tags in spring for fly and tick control. Replace as necessary. Apply as shown with the Y-TEX 2-piece tagging system. All animals in the herd should be tagged. Calves less than 3 months of age should not be tagged or ear damage may result. To minimize development of insecticide resistance, remove used tags at end of fly and lice seasons and follow Y-TEX's recommended tag rotation program.

#### STEP 1

Seat male button firmly on pin, press down and give a slight twist.

#### STEP 2

Place female tag firmly under clip. Collar on tag must be pointing away from pin.

#### STEP 3

Position applicator over ear and squeeze the handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.
