U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

39039-6

Date of Issuance:

DEC 28 2006

Term of Issuance: Unconditional

Name of Pesticide Product:

Warrior Insecticide
Cattle Ear Tag

NOTICE OF PESTICIDE:
Registration
[X] Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Y-TeX Corporation
P.O. Box 1450
1825 Big Horn Avenue
Cody, WY 82414-1450

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. A stamped copy of the label is enclosed for your records.

You may distribute products bearing old labels/labeling for 12 months from receipt of this letter or your next printing of the label, which ever occurs first.

# WARRIOR™

## INSECTICIDE CATTLE EAR TAGS

*For use on Beef and Non-Lactating Dairy Cattle to Control Horn Flies (including pyrethroid-resistant populations), Biting Lice, Sucking Lice, Gulf Coast Ticks, Spinose Ear Ticks, and Aid in Control of Face Flies, Stable Flies and House Flies.*

ACCEPTED  
DEC 28 2006  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 39039-6

**MADE IN USA**

Keep Out of Reach of Children  
**WARNING**  
See side panels for additional precautionary statements

**ACTIVE INGREDIENTS:**

	BY WEIGHT
Diazinon 0,0-diethyl-0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate .....	30.0%
Chlorpyrifos 0,0-diethyl 0-(3,5,6-trichloro-2-pyridinyl) phosphorothioate .....	10.0%
<b>INERT INGREDIENTS</b> .....	<b>60.0%</b>
<b>TOTAL</b> .....	<b>100.0%</b>

**CONTAINS 100 EAR TAGS**

**NET WT. 15 GRAMS PER TAG    CONTENTS: 5 POUCHES OF 20 TAGS EACH**

# Y-TEX® WARRIOR™

## INSECTICIDE CATTLE EAR TAGS

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reformulation or repackaging of this product is prohibited. This labeling must be in the possession of the user at the time of pesticide application.

**NOTE:** When applying tags, wear chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils).

**Summer Season:** Apply 1 tag per animal to control horn flies for 3-4 months, control lice and aid in control of face flies. Apply 2 tags per animal (1 in each ear) for optimum control of horn flies, lice, Gulf Coast ticks and spinose ear ticks for up to 5 months. Two tags per animal also provides substantial reductions of face flies and aids in control of stable flies and house flies. Apply when pests appear.

**Winter Season:** Apply 1 new tag per animal in late fall to early winter to control biting and sucking lice. Kills biting lice and most sucking lice within 2 weeks. Protects from lice reinfestation for 2-3 months.

Apply new tags in spring for fly and tick control. Replace as necessary. Apply as shown with the Y-TEX 2-piece tagging system. All animals in the herd should be tagged. Calves less than 3 months of age should not be tagged or ear damage may result. To minimize development of insecticide resistance, remove used tags at end of fly and lice seasons and follow Y-TEX's recommended tag rotation program.

**STEP 1**  
Seat male button firmly on pin, press down and give a slight twist.

**STEP 2**  
Place female tag firmly under clip. Collar on tag must be pointing away from pin.

**STEP 3**  
Position applicator over ear and squeeze the handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

#### PESTICIDE STORAGE:

Store in a cool place in original container away from direct sunlight. Opened bags containing ear tags should be resealed for storage.

#### PESTICIDE DISPOSAL:

Remove tags before slaughter. Securely wrap used tags in a plastic bag and discard in trash.

#### CONTAINER DISPOSAL:

Do not reuse bag. Discard bag in trash.

- One tag per animal controls pyrethroid-resistant horn flies for 3 to 4 months and aids in control of face flies.

Long taper and rounded edges for durability

- One tag per animal controls biting and sucking lice during winter.

- No withdrawal time required.

- Two tags per animal control horn flies, lice, Gulf Coast and spinose ear ticks up to 5 months and aid in control of face flies, stable flies and house flies.

- Guaranteed against loss due to tag or button failure.\*

Ribbed design for season-long durability

Large surface area for insecticide effectiveness

Snap-Lok™ collar for guaranteed retention\* (U.S. Patent No. 4,581,834)

#### GUARANTEE

\*This guarantee is a limited guarantee, limited to the replacement of tags only, if the tags failed after being properly applied, to remain in the animal's ear for a five (5) month period due to tag breakage or separation from button.

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS**  
**WARNING**

May be fatal if swallowed. Harmful if inhaled, or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing vapors. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Do not contaminate food or feed.

**NOTICE OF WARRANTY**

Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of tags only.

**ENVIRONMENTAL HAZARDS**

THIS PRODUCT IS HIGHLY TOXIC TO FISH, BIRDS, AND OTHER WILDLIFE. Do not apply directly to water. Do not contaminate water by disposal of used tags. Use this product only as specified on the label.

 INSECTICIDE CATTLE EAR TAGS

**FIRST AID**

This product contains diazinon and chlorpyrifos, organophosphate insecticides that inhibit cholinesterase.

If swallowed	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
If on skin or clothing	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15 - 20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
If in eyes	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
If inhaled	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>

**HOT LINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information.

**NOTE TO PHYSICIAN**

Diazinon and chlorpyrifos are organophosphate insecticides. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.
