

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Avenue, N.W.
 Washington, D.C. 20460

EPA Reg. Number:
 39039-14

Date of Issuance:
 NOV 14 2008

Term of Issuance:
 Conditional

Name of Pesticide Product:
 YT-1601 DOG Tag

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(Under FIFRA as amended)

Name and Address of Registrant (include ZIP Code):

Y-TEX Corporation
 P.O. Box 1450
 1825 Big Horn Avenue
 Cody, Wyoming 82414-1450

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:

1. You will submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. You will make the following label changes before you release the product for shipment:
 - a. Revise the EPA Registration Number to read "EPA Registration Number 39039-14."
 - b. You may remove the first aid statement for eye exposure based on the physical characteristics of this product.

Signature of Approving Official:
Linda A De Lencastre for Richard Gebken

Date:
 November 14, 2008

page 2
EPA Reg. No. 39039-14

c. Add "This (4 gram) product may only be used on dogs weighing between 14 and 29 pounds. May not be used on dogs weighing less than 14 pounds, or greater than 29 pounds."

d. Add "This product is slow-acting", or "Takes a few days to show effects."

e. Revise the statement "Kills fleas for up to 5 months" to read "Controls fleas for up to three months."

f. Revise the statement "Kills ticks for up to two months" to read "Controls Brown dog ticks for up to one month."

g. Revise the statement "For maximum population control of fleas and ticks, it is necessary to treat not only the pet but also its environment" to read "For control of fleas and ticks, it is necessary to treat not only the pet but also its environment"

h. Delete the statement "Provides continuous long term protection against pests". These are heightened efficacy claims.

i. Delete the statement "Repels Mosquitoes and Biting Flies". There were no data submitted to support these claims.

j. Delete the statement "Full protection against hard-to-kill ticks will build up within a few days and will last for up to 2 months". Insufficient data were submitted to support these claims.

k. Delete the term "Waterproof". There were no data submitted to support these claims.

l. Under Storage and Disposal change "STORAGE" to "PESTICIDE STORAGE".

m. In the warranty statement change "Y-TEX Corporation makes..." to "To the extent consistent with applicable by law, Y-TEX Corporation makes..."

3. Please submit two (2) copies of your final printed labeling before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

A copy of the reviews are enclosed for your records.

If you have any questions regarding this action, please contact Linda A. DeLuise of my team at (703) 305-5428.

concerning this product or its uses which extend beyond the
use of the product under normal conditions in accord with the
statements made on this label, and in any case, is limited to
replacement of collar attachment only.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do
not contaminate water by disposal of used collar attachment.

Use this product only as specified on this label.

EPA EST. NO. 39039-WY-01

EPA REG. NO. 39039-

Y-TeX®

YT-1601 Dog Tag

The YT-1601 Dog Tag contains a powerful synergized pyrethroid insecticide that kills adult fleas and all blood-feeding stages of ticks, yet exhibits very low toxicity to animals and humans.

READ ENTIRE LABEL BEFORE EACH USE.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not use on puppies less than 6 months of age or on dogs less than 14 pounds. For dogs weighing 14-29 pounds, use one 3.5 gram attachment, for dogs weighing 30-70 pounds, use one 7.5 gram attachment. For improved efficacy on dogs weighing over 70 pounds., you may apply two 7.5 gram attachments.

Remove attachment from package and attach to "D-ring" on existing collar using provided connector. The attachment must swing freely from the "D-ring". Consult a veterinarian before using this product on debilitated, aged or medicated animals. If used on pregnant or nursing dogs do not replace attachment until puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Any pesticidal collar or collar attachment may irritate some animals. If irritation continues, remove the attachment from the animal. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Full protection against hard-to-kill ticks will build up within a few days and will last for up to 2 months. Protection against fleas will last for up to 5 months. As the YT-1601 Dog Tag is depleted of insecticide, ticks and fleas may be again noticed on your pet, indicating it is time to replace the attachment.

DO NOT USE ON CATS. The safety of this product has not been determined on cats.

STORAGE AND DISPOSAL

Store in a cool place in original container.

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in cool place away from direct sunlight.

PESTICIDE DISPOSAL: Wrap used collar attachment in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

(OPTIONAL ADDITIONAL WORDING:)

For maximum population control of fleas and ticks, it is necessary to treat not only the pet but also its environment. Treat your home, both indoors and outdoors, with a residual insecticide and/or Insect Growth Regulator (IGR) to protect home and yard from re-infestation.
