Subject: Amended Reregistration Label for Piperonyl Butoxide
Product Name: YT-1601 Dog Tag
EPA Registration Number: 39039-14
EPA Decision Number: 410441

Dear Mr. Kellerby,

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Piperonyl Butoxide RED, and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

In addition, please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated 2/10/2010
- Alternate CSF #1, dated 2/10/2010

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

If you have any questions about this letter, please contact Julie Chao at (703) 308-8735 or chao.julie@epa.gov.

Sincerely,

 Richard J. Gebken
Product Manager (10)
Insecticide Branch
Registration Division (7504P)

ACCEPTED

AUG - 2 2011

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:

EPA. Reg. No: 39039-14

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

May be harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

NOTICE OF WARRANTY

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW,
Y-TEX CORPORATION MAKES NO WARRANTY OF
MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR
OTHERWISE, EXPRESSED OR IMPLIED**
concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of collar attachment only.

ENVIRONMENTAL HAZARDS

This pesticide is **extremely** toxic to aquatic organisms, including fish and invertebrates. Do not contaminate water by disposal of used collar attachment. Use this product only as specified on this label.

Y-TeX®

YT-1601 Dog Tag

The YT-1601 Dog Tag contains a powerful synergized pyrethroid insecticide that kills adult fleas and all blood-feeding stages of ticks, yet exhibits very low toxicity to animals and humans.
READ ENTIRE LABEL BEFORE EACH USE.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not use on puppies less than 6 months of age. For dogs weighing 14-29 pounds, use one 4 gram attachment. This 4 gram product may only be used on dogs weighing between 14 and 29 lbs. May not be used on dogs weighing less than 14 lbs or greater than 29 lbs.

Remove attachment from package and attach to "D-ring" on existing collar using provided connector. The attachment must swing freely from the "D-ring". Consult a veterinarian before using this product on debilitated, aged or medicated animals. If used on pregnant or nursing dogs do not replace attachment until puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Any pesticidal collar or collar attachment may irritate some animals. If irritation continues, remove the attachment from the animal. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Protection against fleas will last for up to 5 months. As the YT-1601 Dog Tag is depleted of insecticide, ticks and fleas may be again noticed on your pet, indicating it is time to replace the attachment.

DO NOT USE ON CATS. The safety of this product has not been determined on cats.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool place in original container, away from direct sunlight.

PESTICIDE DISPOSAL: Securely wrap used collar attachment in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse bag. Discard bag in trash, or offer for recycling, if available.

(OPTIONAL ADDITIONAL WORDING:)

For control of fleas and ticks, it is necessary to treat not only the pet but also its environment. Treat your home, both indoors and outdoors, with a residual insecticide and/or Insect Growth Regulator (IGR) approved and labeled for such use, to prevent re-infestation of the home and yard.
